THIRTEENTH YEAR. NO. 44.

EAST LIVERPOOL, OHIO, THURSDAY, JULY 29, 1897.

TWO CENTS

THE OPERATORS AGREE

Document of 21 Articles Adopted by the Conference.

95 PER CENT MUST NOW SIGN IT.

The "Pluck-Mc" Store to Be Abolished. Wage Disputes to Be Submitted to Arbitration—DeArmit on Committee to Get Signatures.

PITTSBURG, July 29.—The operators' conference adopted DeArmit's definition of the Pittsburgh district as follows: "That it embrace all mines in what is commonly known as the Pittsburgh coal seam on the railroads within a radius of 55 miles of Pittsburgh, and on the Monongahela river to the upper limits of the sixth pool, and all mines on the Youghiogheny," a schedule of which was attached and made part of the agreement. This was agreed to.

The articles of the agreement were taken up and the following were adopted:

"First.—That we will pay the miners employed by us in cash for all the coal mined or loaded by them on the pit car or wagon on the basis of coal screened over the standard screen hereinafter provided for. Provided, if a different basis for screening coal or weighing coal before screening from that contemplated in this and subsequent articles shall be found necessary and binding upon the parties hereto because of recent legislation of this commonwealth, then such basis is to stand modified to the extent necessary to conform to such legislation.

"Second.—That 2,000 pounds shall constitute a ton, and that checkweighmen shall be permitted on all tipplers.

"Third.—That the miners shall be credited with the full quantity of coal the mine car is found to contain, on the basis of coal screened over the standard screen, as hereinafter provided, as accurately shown by accurate and correct weights and scales.

"Fourth.—That no owner or operator, or other person connected with the management of a mine shall be interested, directly or indirectly, in any store, or in the profit arising from the sale of merchandise to any employes of any such owner or operator, nor shall any person or persons, firm, corporation or association, being such owner, or operator, or superintendent, or manager, influence in any manner any employe to trade at any store. Nor shall any orders be given by him, or them, or any person for them, to any employe to any store, nor shall he they honor, receive or pay any order that may have been given by any employe to any person, for supplies or merchandise.

"Fifth.—That payment shall be made in cash semi-monthly for all labor performed at the mines during the pay period preceding the pay days, without deduction or set off for any merchandise, supplies or goods that may have been obtained by the miner from any store, or for or on account of any order for such merchandise, supplies or goods."

Other sections of interest to the trade alone follow until the nineteenth, which says:

"The agreement shall continue in force from the date that a sufficient number of signatures are attached, until Jan. 1, 1899, unless sooner terminated by a vote of the majority, as indicated by the aggregate total tonnage or output of coal. The subscribers agree to pay within ten days after signing the agreement, to the chairman or treasurer to be chosen by the commission, the sum of one-tenth of 1 per cent on each ton of total output during the calendar year ending Jan. 1, 1897, and to pay the same on or before Jan. 15 of each year until the expiration of the contract. That in the event said contribution shall exceed the total actual expenses, the excess shall be distributed among the contributors.

"The agreement shall not become effective unless signed on or before Jan. 1, 1898, or sooner, upon the certificate of G. W. Schleidenberg, M. H. Taylor, J. B. Zerbe, W. P. DeArmit and William P. Murray—that the signatures of the agreement comprise that proportion of operators contemplated by the foregoing agreement—viz., 95 per cent."

One clause allows for a call for a meeting by 90 of the subscribers signing such a call and sending the appeal to G. W. Schleidenberg.

The twenty-first section providing for an arbitration commission to settle on the wages to be paid the miners, a board of arbitration the number to be agreed upon in the manner prescribed by the commission, of a like number of operators and miners, the latter to be employes of the subscribers, and the decision of the arbitrators to be binding upon both parties. The clause also permits the admission of other parties at any time in order to make any award more effective.

At the conclusion of the work Judge Owen of Ohio said he had called on Colonel W. P. Rend, and the latter had authorized him to say he, the colonel, will sign the agreement adopted if 95, 50 or 25 per cent of the operators sign the same.

The agreement must now have the requisite number of signatures, 95 per cent of the railroad and river operators, embracing the territory in the Pittsburgh seam, and the mines to the sixth pool; also all mines within a radius of 55 miles of Pittsburgh, before it will be valid.

W. P. DeArmit, J. B. Zerbe, J. J. Steytler, J. C. Dysart, N. F. Sanford and General John Little were appointed a committee to revise the agreement, have it printed, distributed and to secure signatures, with the assistance of all the other operators.

Debs Names a Miners' Day.

WHEELING, July 29.—Eugene V. Debs has issued an open letter, saying: "Thursday, Aug. 5, has been set apart as 'Miners' day.' It is to be the red letter day of the big strike. In every hamlet, village, town and city throughout the nation labor is to assemble in solemn conclave. From a thousand rostrums labor's protest against oppression must be voiced."

Dilcher Sent Good News.

COLUMBUS, July 29.—Fred Dilcher of the National Executive committee has wired national headquarters that Sugar Creek, McDonald, Turkey Knob and Dunlop mines have closed by a vote of the miners at a massmeeting in New River district.

DEED OF A BRAVE WOMAN.

Seized the Lines of Runaway Horses to Save Her Children.

ALLIANCE, O., July 29.—Mrs. Henry Maxwell, residing in Randolph township, had just tied her horse to a hitching post in town and was on her way downtown when a runaway team, drawing a heavy wagon, came dashing up the street. Two squares west of her a number of little children were playing on the street.

Mrs. Maxwell, realizing their helplessness as the horses went galloping by, grabbed the flying lines and held on to them, although tugged at her feet several times. She kept sawing the lines back and forth and had the satisfaction of stopping the team within the next square. She escaped with but a few bruises.

BIBLE GAVE THE IDEA.

Two Brothers at Tiffin Make a Perpetual Motion Machine.

TIFFIN, O., July 29.—Caspius Spieler and brother, Alonzo, of this city claim to have invented a machine which solves perpetual motion. They have made a test. Four eastern capitalists were the only persons present, and they say the machine is a great success, and enough power can be obtained to run any machinery in existence.

They go to Washington this week to have it patented and will divulge nothing until then. They claim to have received the idea from the Bible, from the first and tenth chapters of Ezekiel.

WILL MOVE TO OHIO.

A French Woman Claims George Henry Williamson's Estate.

PARIS, July 29.—George Henry Williamson, the wealthy American who died here after a residence of a quarter of a century in France, came from Cincinnati.

By his will he left his entire fortune to his two daughters by a French woman named Marie Grandchamps. The French courts having dismissed the claims of the French claimants, the mother of the two girls, who says Williamson was a citizen of Ohio, proposes to return to that state as soon as her health will permit. She says her two daughters are legitimate.

A NEW COMPLICATION.

Heaters Demand Pay For Their Helpers at Youngstown.

YOUNGSTOWN, O., July 29.—A new point has come up in the discussion of the Amalgamated association wage scale. It appears that Pittsburgh firms have been paying the heaters' helpers, while in the Mahoning valley the heater has paid his helper out of his own pocket, from \$2 to \$3 a day.

The heaters have notified Amalgamated association mill committees and the manufacturers that in event of any reduction of finishers' wages they will expect the companies to pay the heaters' helpers.

A Female Bicyclers' Race.

TOLEDO, July 29.—Lizzie Glaw and Tillie Anderson, each of whom claims to be the champion female rider of the world, are meeting at the Casino, on a 14 lap track, for a purse of \$500, and a side bet of \$700 and the title of champion. The race will consist of an hour's racing for three nights, two out of three heats to win. The racers covered 22 miles and 11 laps in an hour.

Ordered Work Stopped.

MANSFIELD, July 29.—The board of managers of the Ohio state reformatory has ordered the suspension of work on the wall about the great building on account of alleged irregularities. H. A. Kammacher has the contract, and it is claimed he is not building the wall according to specifications.

An Ohioan Consul at Cork.

WASHINGTON, July 29.—The president has made the following appointment: Daniel Swiney of Ohio, consul at Cork, Ireland.

Invitation Telephoned to McKinley.

SAN FRANCISCO, July 29.—Mayor Phelan has telephoned an invitation to President McKinley at Washington to visit San Francisco. The mayor has also wired Congressman Louie, requesting him personally to see the president and get from him, if possible, a favorable reply to the invitation.

CIVIL SERVICE ORDER.

McKinley Gets In a Blow at Officeseekers.

MORE JOBS IN CLASSIFIED LIST.

The President Makes a Ruling Regarding Customs and Internal Revenue Offices. Protection Thrown Around Some Democrats Now Holding Jobs.

WASHINGTON, July 29.—President McKinley has promulgated the following important amendment to civil service rule 2:

"No removal shall be made from any position subject to competitive examination except for just cause and upon written charges filed with the head of the department or other appointing officer, and of which the accused shall have full notice and an opportunity to make defense.

He has also amended rule 3, so as to include within the classified service the employees of all custom house offices without regard to the number of employees. Hitherto the classification embraced customs offices where the number of employees was five or more. This order brings into the classified service 65 hitherto unclassified customs offices.

The president has also amended rule 6, making exceptions to examinations so as to read as follows:

"Customhouse service—One cashier in each customs district, one chief or principal deputy or assistant collector in each customs district, one principal deputy collector at each sub-port or station.

"Internal revenue service—One employee in each internal revenue district who shall act as cashier or chief deputy or assistant collector, as may be determined by the treasury department: one deputy collector in each internal revenue district where the number of employees in the office of the collector exceeds four; one deputy collector in each stamp (or branch) office.

Appointments to the positions named in this rule in the custom house service and in the interior revenue service shall be subject to an examination to be prescribed by the secretary of the treasury."

The Republican leaders have been led to believe that the president would take all of the deputy collectors in internal revenue and of customs out of the civil service, but instead of doing so he only took a part out, and to offset this threw the protection of the service over a large number of Democrats who had not been exempted by President Cleveland. Further than that, the president has forbidden the removal of Democratic employees in classified places without a full investigation of all the facts.

U. S. ARMOR PLATE BOARD.

Secretary Long Appointed Commodore Howell and Captain McCormick.

WASHINGTON, July 29.—Secretary Long has taken the preliminary steps towards the creation of a board of naval officers to ascertain the cost of a government armor plant. Two members of the board been selected, Commodore Howell, commandant at the League Island navy yard, and Captain McCormick of the Norfolk navy yard. Both of these officers are possessed of much technical knowledge, and may be said to rank high as experts upon the subject of armor.

The field of work of the board will be extensive; they must not only ascertain the cost of a modern armor plant, but must also take into account the propriety, or rather the necessity, of establishing in connection with it a complete plant for the production of steel ingots, a very large undertaking. The experts are of the opinion now that it is probably necessary in making armor to begin with the ingot at the very moment it is forged and before it has cooled once.

This is done in the best practice, and if it should be held to be necessary the government will be obliged to establish a steel plant alongside its armor plant if it embarks in the business of armor making. The board is to report to congress at its next session.

HIS ANCESTOR'S WAR RECORD.

President McKinley Receives This Gift From a Pennsylvanian.

YORK, Pa., July 29.—Through the courtesy of E. W. Spangler of this city President McKinley is now in possession of the revolutionary war record of David McKinley, his great grandfather.

David McKinley was a native of this country during the revolution and served in a York county company. The rosters of the companies from this region are in the possession of Miss Carrie Hay, granddaughter of Lieutenant Colonel John Hay. Through the efforts of Mr. Spangler, President McKinley has been presented with that one containing the record of his ancestor.

Alleged B. & L. Shortage.

CHICAGO, July 29.—According to a bill filed in the circuit court the Mechanics' and Traders' Savings, Loan and Building association has an alleged shortage of \$338,000. The bill also

charges that the officers of the association aided Secretary French to use the building society as a feeder for the latter's business as a builder and contractor.

VIOLATING THE CHEESE LAW.

A Liverpool Dealer Shows Up Some Shippers of This Country.

WASHINGTON, July 29.—The attention of the treasury department and also the agricultural department has been called to alleged violations of the filled cheese law passed by the last congress. A letter from a dealer in Liverpool has been shown together with the cloth wrapped around filled cheese which was sent abroad, showing that the stamping of cheese has not been carried out as provided by the law.

The stamping required by law says that filled cheeses must be stamped with black letters two inches long. The stamps used in the cloth returned from England are in violet ink and scarcely distinguishable. The Liverpool merchant says that a great quantity of filled cheese is now shipped abroad and sold as other cheese, as the marking required by the government is done so badly that the cheese is not supposed by the buyers to be filled.

RICHMOND AND THE G. A. R.

A Newspaper Intimates That Colored Members Would Be Objectionable.

RICHMOND, July 29.—The proposition to induce the Grand Army to hold its encampment next year here meets with comparatively little sympathy. The Richmond Times, a leading gold Democratic paper, whose editor was one of Mosby's men, says editorially:

"It would be worse than affectation, it would be insincere, to pretend that the invitation which is to be extended to the Grand Army of the Republic to make their encampment in 1898 at Richmond is not prompted by business considerations.

"What complications may be met because of the place which the colored troops have in the Grand Army of the Republic we cannot suggest, because we do not know what the custom in the matter is. But it is certain that there will be no change in our own social customs here to suit a transient demand should one be made and this is no doubt understood or should be understood by all parties."

HASTINGS' MAN ARRESTED.

His Mine Superintendent Accused of Perjury and Probably Robbery.

ALTOONA, Pa., July 29.—The trouble at Sterling mine, Hastings, is still unsettled. Lawyer Shoemaker went from Ebensburg to look after the interests of the strikers. The two men arrested at the instance of Superintendent Nicholson on the charge of attempting to burn the tipple at No. 8 have been released on bail. Superintendent Nicholson has since been arrested on the charge of perjury. He will also be charged with robbing the miners of 500 cars of coal during the month of June by his method of paying drivers out of the coal mined. The miners refuse to work under him.

The strike at the Mitchell mine has ended favorably to the miners.

Miners Hire a Lawyer.

CLARKSBURG, W. Va., July 29.—A committee representing the miners from Fairmont have employed Hon. John J. Davis, ex-congressman, to defend them in the injunction granted at the request of the operators at Fairmont restraining agitators from holding meetings.

Addressing De Armit's Men.

PITTSBURG, July 29.—Eugene V. Debs and others are addressing De Armit's miners this afternoon.

SAILED FOR THE GOLD FIELD.

110 Passengers Left San Francisco—Offered Big Money For Tickets.

SAN FRANCISCO, July 29.—The steamer Excelsior has sailed for the north with 110 passengers for Klondyke. Over 2,000 people were at the wharf. Three times the original price was offered for tickets. One passenger changed his mind after receiving an offer of \$1,500 for the pasteboard for which he originally paid but \$150.

OTTAWA, July 29.—Mounted police are being dispatched to the Yukon country. A narrow gauge railway may be built from the coast to the gold field.

WASHINGTON, July 29.—No United States troops will be sent to the Yukon country until spring.

U. S. MINISTER NOT WELCOME.

Greater Central American Republic Declares Merry Persons Non Grata.

MANAGUA, Nicaragua, July 29.—The diet of the Greater Republic of Central America has declared Captain W. L. Merry of San Francisco, who was recently appointed United States minister to Costa Rica, Nicaragua and Salvador, persona non grata.

Prevented Reduction In Wages.

PEORIA, Ills., July 29.—A telegram has been received by the Brotherhood of Locomotive Firemen saying they have won their suit against the receiver of the Philadelphia, Reading and New England railroad to prevent reduction of wages of the road men.

The President's Train.

ALBANY, July 29.—President McKinley and party passed through this city last night at 10:15 p. m. enroute for Lake Champlain.

AGORMAN CONVENTION

Senator Held Sway Over Maryland Democrats.

BIMETALLISM (NO RATIO) URGED.

Resolutions Say the Votes of Democrats Forced the President to Send the Wollcott Commission to Europe—Dingley Tariff Law Denounced.

BALTIMORE, July 29.—Harmony of the old-fashioned kind prevailed at the Democratic state convention here and it was clearly demonstrated that United States

5 PER CENT MUST NOW SIGN IT.

The "Pluck-Me" Store to Be Abolished. Wage Disputes to Be Submitted to Arbitration—DeArmit on Committee to Get Signatures.

PITTSBURG, July 29.—The operators' conference adopted DeArmit's definition of the Pittsburgh district as follows:

"That it embrace all mines in what is commonly known as the Pittsburgh coal seam on the railroads within a radius of 55 miles of Pittsburgh, and on the Monongahela river to the upper limits of the sixth pool, and all mines on the Youghiogheny," a schedule of which was attached and made part of the agreement. This was agreed to.

The articles of the agreement were taken up and the following were adopted:

"First—That we will pay the miners employed by us in cash for all the coal mined or loaded by them on the pit car or wagon on the basis of coal screened over the standard screen hereinafter provided for. Provided, if a different basis for screening coal or weighing coal before screening from that contemplated in this and subsequent articles shall be found necessary and binding upon the parties hereto because of recent legislation of this commonwealth, then such basis is to stand modified to the extent necessary to conform to such legislation.

"Second—That 2,000 pounds shall constitute a ton, and that checkweights shall be permitted on all tipplers.

"Third—That the miners shall be credited with the full quantity of coal the mine car is found to contain, on the basis of coal screened over the standard screen, as hereinafter provided, as accurately shown by accurate and correct weights and scales.

"Fourth—That no owner or operator, or other person connected with the management of a mine shall be interested, directly or indirectly, in any store, or in the profit arising from the sale of merchandise to any employees of any such owner or operator, nor shall any person or persons, firm, corporation or association, being such owner, or operator, or superintendent, or manager, induce in any manner any employee to trade at any store. Nor shall any orders be given by him, or them, or any person for them, to any employee to any store, nor shall he they honor, receive or pay any order that may have been given by any employee to any person for supplies or merchandise.

"Fifth—That payment shall be made in cash semi-monthly for all labor performed at the mines during the pay period preceding the pay days, without deduction or set off for any merchandise, supplies or goods that may have been obtained by the miner from any store, or for or on account of any order for such merchandise, supplies or goods."

Other sections of interest to the trade alone follow until the nineteenth, which says:

"The agreement shall continue in force from the date that a sufficient number of signatures are attached, until Jan. 1, 1899, unless sooner terminated by a vote of the majority, as indicated by the aggregate total tonnage or output of coal. The subscribers agree to pay within ten days after signing the agreement, to the chairman or treasurer to be chosen by the commission, the sum of one-tenth of 1 per cent on each ton of total output during the calendar year ending Jan. 1, 1897, and to pay the same on or before Jan. 15 of each year until the expiration of the contract. That in the event said contribution shall exceed the total actual expenses, the excess shall be distributed among the contributors."

"The agreement shall not become effective unless signed on or before Jan. 1, 1898, or sooner, upon the certificate of G. W. Schleidenberg, M. H. Taylor, J. B. Zerbe, W. P. DeArmit and William P. Murray—that the signatures of the agreement comprise that proportion of operators contemplated by the foregoing agreement—viz., 95 per cent."

One clause allows for a call for a meeting by 90 of the subscribers signing such a call and sending the appeal to G. W. Schleidenberg.

The twenty-first section providing for an arbitration commission to settle on the wages to be paid the miners, a board of arbitration the number to be agreed upon in the manner prescribed by the commission, of a like number of operators and miners, the latter to be employees of the subscribers, and the decision of the arbitrators to be binding upon both parties. The clause also permits the admission of other parties at any time in order to make any award more effective.

At the conclusion of the work Judge Owen of Ohio said he had called on Colonel W. P. Rend, and the latter had authorized him to say he, the colonel, will sign the agreement adopted if 95, 50 or 25 per cent of the operators sign the same.

The agreement must now have the requisite number of signatures, 95 per cent of the railroad and river operators, embracing the territory in the Pittsburgh seam, and the mines to the sixth pool; also all mines within a radius of 55 miles of Pittsburgh, before it will be valid.

W. P. DeArmit, J. B. Zerbe, J. J. Steyler, J. C. Dysart, N. F. Sanford and General John Little were appointed a committee to revise the agreement, have it printed, distributed and to secure signatures, with the assistance of all the other operators.

RICHMOND, July 29.—The proposition to induce the Grand Army to hold its encampment next year here meets with comparatively little sympathy. The Richmond Times, a leading gold Democratic paper, whose editor was one of Mosby's men, says editorially:

"It would be worse than affectation, it would be insincere, to pretend that the invitation which is to be extended to the Grand Army of the Republic to make their encampment in 1898 at Richmond is not prompted by business considerations.

"What complications may be met because of the place which the colored troops have in the Grand Army of the Republic we cannot suggest, because we do not know what the custom in the matter is. But it is certain that there will be no change in our own social customs here to suit a transient demand should one be made and this is no doubt understood or should be understood by all parties."

HASTINGS' MAN ARRESTED.

His Mine Superintendent Accused of Perjury and Probably Robbery.

ALTOONA, Pa., July 29.—The trouble at Sterling mine, Hastings, is still unsettled. Lawyer Shoemaker went from Ebensburg to look after the interests of the strikers. The two men arrested at the instance of Superintendent Olson on the charge of attempting to burn the tipple at No. 8 have been released on bail. Superintendent Olson has since been arrested on the charge of perjury. He will also be charged with robbing the miners of 500 cars of coal during the month of June by his method of paying drivers out of the coal mined. The miners refuse to work under him.

The strike at the Mitchell mine has ended favorably to the miners.

Miners Hire a Lawyer.

CLARKSBURG, W. Va., July 29.—A committee representing the miners from Fairmont have employed Hon. John J. Davis, ex-congressman, to defend them in the injunction granted at the request of the operators at Fairmont restraining agitators from holding meetings.

Addressing De Armit's Men.

PITTSBURG, July 29.—Eugene V. Debs and others are addressing De Armit's miners this afternoon.

SAILED FOR THE GOLD FIELD.

110 Passengers Left San Francisco—Offered Big Money For Tickets.

SAN FRANCISCO, July 29.—The steamer Excelsior has sailed for the north with 110 passengers for Klondyke. Over 2,000 people were at the wharf. Three times the original price was offered for tickets. One passenger changed his mind after receiving an offer of \$1,500 for the pasteboard for which he originally paid but \$150.

OTTAWA, July 29.—Mounted police are being dispatched to the Yukon country. A narrow gauge railway may be built from the coast to the gold field.

WASHINGTON, July 29.—No United States troops will be sent to the Yukon country until spring.

U. S. MINISTER NOT WELCOME.

Greater Central American Republic Declares Merry Persona Non Grata.

MANAGUA, Nicaragua, July 29.—The diet of the Greater Republic of Central America has declared Captain W. L. Merry of San Francisco, who was recently appointed United States minister to Costa Rica, Nicaragua and Salvador, persona non grata.

Prevented Reduction In Wages.

PEORIA, Ills., July 29.—A telegram has been received by the Brotherhood of Locomotive Firemen saying they have won their suit against the receiver of the Philadelphia, Reading and New England railroad to prevent reduction of wages of the road men.

The President's Train.

ALBANY, July 29.—President McKinley and party passed through this city last night at 10:15 p. m. enroute for Lake Champlain.

A GORMAN CONVENTION

Senator Held Sway Over Maryland Democrats.

BIMETALLISM (NO RATIO) URGED.

Resolutions Say

LOOKED AT THE SUN

Smoked Glass Was In Demand This Morning.

SKY WAS CLEAR FOR AWHILE

The Advertised Eclipse Appeared on Time and Attracted Much Attention. Thousands of People Witnessed the Sight in Different Parts of the Country.

Old Sol was an object of interest this morning, the shadow of the moon being seen by a great many people.

Between 8 and 10 o'clock the moon passed directly between the earth and the sun, and for a time the sky was clear enough to permit of an excellent view. At the middle of the eclipse the light was not entirely shut off, a narrow ring of sunlight surrounding the moon, but this was only seen on a favored line. On each side of this line to a distance of about 2,300 miles, the eclipse was partial, the portion of the sun concealed from view being smaller the farther north or south the observer happened to be. The northern limit, beyond which there was no eclipse, is in North America, at about the fifty-sixth parallel of latitude. At Washington and across the whole of the United States at points in about the same latitude as Washington—38 degrees, 50 minutes—exactly one-half of the sun's surface (the lower half) was veiled.

In all parts of the city people could be seen watching the progress of the eclipse through smoked glass. The shadow was clearly defined, and at one time the sun was but a crescent, we being too far north to see the full power of the shadow.

Every year there must be at least two possible eclipses, both of the sun, while the largest number is seven, five of the sun and two of the moon, which eclipses happen at two different seasons of the year, generally one-half year apart. The most usual number is four or five a year. We have a few instances, however, when the total seven have occurred during the year, the most recent year being that of 1823. Every eighteen years and eleven days this order of eclipses repeats itself and the same series is practically gone through with just so often. This period of repetition is called the "saros" period.

During the present century the total number of solar eclipses visible in the United States have taken place excepting one, which will be visible from Louisiana to Virginia on the 27th of May 1900, for a duration of two minutes. It is seldom any eclipse continues much longer, though the theoretical maximum of a total eclipse of the sun to a person observing near the equator, under most favorable conditions, may possibly last seven minutes fifty-eight seconds.

FASTEAST BOAT ON THE RIVER.

The Queen City Can Show Any of Them Her Heels.

A Pittsburg paper says this of what is becoming a popular boat with Liverpool people:

"The Queen City was held in all the way up on her present trip, but demonstrated by a few short bursts of speed that there is nothing in the shape of a stern wheel boat on the Ohio that can catch her. She is said to be the fastest stern wheel boat ever built either on the Ohio or elsewhere. She makes steam easily, and does not carry more than 120 pounds of steam. Sometime, under favorable circumstances, Captain R. R. Agnew is going to cut loose and make a lot of new records. The records for speed are held by boats of ante-bellum days, but the Queen City will probably change this."

THE GAME LAWS

Protect Everything But Wookcock and Sparrows.

The game laws, if enforced, would just now protect everything but the wookcock and English sparrow. After Sept. 1, squirrels, rabbits and pheasants may be shot, but it will not be lawful to kill quail before Nov. 10. On Dec. 15, the law again steps in and protects these game birds and beasts. The lark, plover and flicker, cannot be slaughtered or trapped during the entire year. It is said that quail will be more abundant this season than for a long time.

MAY TRY AGAIN.

The Alacanina Tin Company Are Still Looking For a Site.

A letter has been received in the city which says that the Alacanina Tin Company, of Youngstown, is still looking for a site. They have not forgotten East Liverpool, and now that business is improving throughout the country, particularly in the tin trade, may decide to make another move in this direction.

WOMAN'S WORLD.

AN INTERESTING VISITOR WHO COMES FROM PITCAIRN ISLAND.

Woman's Interest In Education—Privileges of the Club—Notable Women and Woman Suffrage—A Caution to Wheelwomen—Two Southern Women.

Miss Rosalind Amelia Young, a direct descendant of that now historically famous party of "bounty mutineers" who settled on Pitcairn island, is in the city, a guest at the residence of Miss Mindora Berry, on Van Ness avenue. Miss Young is a pleasant, bright and intelligent woman, simple, earnest and straightforward in manner. She was educated, she explained, on the island by her father, who was a teacher there. She commenced to assist in the duties of the classroom when but 18 years of age. In speaking of her education she added: "You ask me where I was educated. In your acceptance of the requirements of education I cannot lay claim to any. I simply can read and write."

Yet this woman from the faraway isle, whose advance in letters has been principally through self culture, has written a volume—"Story of the Pitcairn Island"—which has gone through its third edition. She speaks English well and correctly.

Miss Young has regular features, a rich olive complexion, with a slight flush of color at times playing in her cheeks. Her eyes are dark, and her black hair is streaked with silver. She has passed her life, with the exception of seven years of childhood spent on Nor-

MISS ROSALIND A. YOUNG.

folk island, on Pitcairn island. This is her first visit to the continent. She left home on the missionary ship Pitcairn, which, after cruising amid the Pacific islands, came up to Honolulu. Miss Young from there came to the coast by steamer. Since her arrival here she has been at the sanitarium near Napa. Her visit to California was to place herself under surgical treatment.

Miss Young, who is a great-granddaughter of John Adams, or Alexander Smith, and his wife Patty, a native islander, and of Edward Young and his wife Nancy, also an islander, is in religious affiliation with the Seventh Day Adventists.

She was originally an Episcopalian.

She ascribes her early belief to the force of surroundings and circumstances.

John Adams, she says, when he determined to reform his own life and lead his little colony of mutineers in the way of righteousness, took the English book of prayer for a guide, with the result that his people became church of England Episcopalian.

In this generation some of them have joined other denominations, Rosalind Young among the number.

The young woman will probably go back to her island home on the Pitcairn when it sails away from this port in January or February of next year. In the meantime she may make a trip to the Atlantic coast.—San Francisco Chronicle.

Woman's Interest In Education.

"Every one will admit woman's interest in education," said Ellen H. E. Price of Swarthmore, Pa., to a New York Tribune reporter. "Even the most conservative will grant that the training of the young is not only her privilege, but her duty. Does it not seem strange, then, that in many of our states women have been so entirely ignored in the management of our public schools?

In the schools, as in the professions, men have had hitherto the advantage of the squatter—men are on the ground, and possession is nine points of the law. In the professions, however, we find here and there successful women who have overcome this disadvantage by their individual worth and persistent effort, but in the public schools the matter is more difficult, for they are under the control of the state, and those who have possession have the weapon to defend themselves in this possession.

"For instance, the constitution of Pennsylvania makes women eligible to any office of control or management under the school system, yet it denies them the right to vote for the people who hold offices or make the appointments.

Experience has shown that so long as women have to look to the men of the state to place them in offices of control or management they will not get the offices, for in this, the twenty-fourth year since our constitution went into effect, we find that out of a total of 18,784 school directors only 41 are women.

"The office of director is probably the most important in the whole list. The ideal school director should be equipped with a liberal education, a knowledge of up to date educational methods, interest in the public schools and a belief in their possibilities, a knowledge of child nature and the needs of children, the ability to judge character and to deal with men, and sufficient leisure to devote to the various duties of the office, and the more of these qualities and attainments a school board possesses the more nearly it approaches the ideal.

"Now, few men, even granting them all the other qualifications, know child nature or have much appreciation of children's needs, and many men have little or no leisure to attend to the duties of the office. Therefore a board composed entirely of men, even educated men, is not likely to be ideal—in fact, is very sure to be inefficient and incapable of bringing about the best conditions for the school under its control."

Privileges of the Club to Women.

One of the newest courtesies offered by man to woman is the establishment of ladies' annexes to men's clubs. Conservative Boston led the way in this innovation when the Algonquin, Somerset and Puritan clubs opened their doors—that is to say, their outside doors—to women, friends of the members. The University club of San Francisco followed in their footsteps, and now two of the most conservative clubs in New York are seriously considering the question of adding ladies' reception rooms and restaurants.

In Boston and San Francisco the experiment has been a decided success from all points of view. The ladies' restaurant adds to the revenue of the club, the members can offer an easy hospitality to their friends, and women give unqualified approval and unlimited patronage to the new establishments.

There are many reasons why a man's club appeals to a woman, the first and foremost being, of course, that she has for so long been excluded from it. "The club" has been man's special prerogative; women have formed societies, more or less chaotic gatherings, after all, which have never been to her what "the club" is to a man. Now it is as though the moon, or a piece of it, had fallen into her outstretched hands. There has always been a mystery surrounding a man's club, and woman has been brought so close to it that she is sure the veil will soon be rent entirely asunder.

Another reason, which women themselves will be slow to acknowledge, but which they must recognize, is that they delight in the order and method which they find in this housekeeping done by men for men. From immemorial women have been the housekeepers, the housewives, and most of them have felt the friction, the wear and tear of their work. Here, in this sanctum of man's ordering, everything moves in a quiet, methodical way, as if regulated by some hidden clockwork. The question arising from this discovery may in the near future be found hard to answer.—New York Journal.

Notable Women and Woman Suffrage.

One of the grievances of the suffrage leaders lay in the fact that the literary women of the country would express no sympathy with their efforts. Poets and authors in general were denounced. Gail Hamilton, who had the good of woman in her heart, who was better informed on public affairs than perhaps any other woman in the United States, and whose trenchant pen cut deep and spared not, always reproached the cause. Mrs. Stowe stood aloof, and so did Catherine Beecher, though urged to the contrary course by Henry Ward Beecher and Isabella Beecher Hooker.

In a letter to Mrs. Cutler, Catherine Beecher said: "I am not opposed to women's speaking in public to any who are willing to hear. Nor am I opposed to women's preaching, sanctioned as it is by a prophetic apostle, as one of the millennial results. Nor am I opposed to a woman's earning her own independence in any lawful calling and wish many more were open to her which are now closed. Nor am I opposed to the organization and agitation of women, as women, to set forth the wrongs suffered by great multitudes of our sex, which are multiform and most humiliating. Nor am I opposed to women's undertaking to govern boys and men—they always have and they always will. Nor am I opposed to the claim that women have equal rights with men. I rather claim that they have the sacred superior rights that God and good men accord to the weak and defenseless, by which they have the easiest work, the most safe and comfortable places and the largest share of all the most agreeable and desirable enjoyments of this life. My main objection to the woman suffrage organization is this—that a wrong mode is employed to gain a right object."—Woman Suffrage and Education, by Helen Kendrick Johnson, in Appleton's Popular Science Monthly.

A Caution to Wheelwomen.

In directions to bicycle riders regarding the rule of the road it has frequently been pointed out that when overtaking and passing a vehicle on the left, which is the correct side, the bicyclist must be extremely watchful against the possibility of colliding with a wagon approaching from the opposite direction. The fact has not been emphasized,

however, that the danger in such instances is far greater for a woman than for a man. This is not because she is less prudent or skillful in her riding, either, but simply because of the way in which she is dressed.

Any skirt, no matter how well it is cut and fitted, will blow about somewhat, and in passing through a comparatively narrow space between two vehicles there is a chance of its becoming entangled in the spokes of the wheels on the "leeward" side of the rider—if a nautical term may be forgiven. Such an occurrence would be almost certain to cause a horrible accident, and yet every cyclist who has ridden much in the city has doubtless seen dozens of hairbreadth escapes from just this state of affairs. The only preventive is unremitting vigilance on the part of the woman as she overtakes or passes a wagon.

Sometimes I have thought that there is more danger when she is riding with a man, because it is natural, after seeing him pass safely between the vehicles, to suppose that she can follow without risk. She does not always remember in time that her fluttering skirt requires more room. It is only one of the many occasions in bicycling where quick thinking and equally prompt action, the characteristics of a good rider, become necessary.—Harper's Bazaar.

Two Southern Women.

Mrs. William Felton, who represented Georgia in the national council of mothers in Washington, and Mrs. William King, who was the leading delegate from the Atlanta Woman's club to the same convention, worthily represent the highest order of southern women. Both are identified prominently with the great co-operative movements that have been made for women's advancement; both have done good work for the world in the fields of philanthropy and literature, yet they have preserved the modest, sympathetic charm that distinguished the southern woman of the old regime. Nor have their public labors and responsibilities been allowed to interfere with their home duties or the claims of their families and friends. They have proved efficient helpers to their husbands and wise mothers to the children they have reared to worthy manhood and womanhood.

Mrs. Felton, who occupied an important official place at the Chicago World's fair and also at the Atlanta exposition, may be styled, as regards progress and intellectual freedom, the pathfinder for the women of her state. She was the first to brave prejudice and fogeyism through her fearless utterances on the platform and in the newspapers against political dishonesty, intemperance and religious bigotry and narrowness.—Ex-change.

A Useful Boot Rack.

No well regulated houses should be without boot rack that will allow the air to get at the soles of boots when not in use. During these summer months especially people are continually being caught out in damp weather without the protection of rubbers, and on removing their boots at night allow them to stand with the soles in contact with the floor. In this position the air cannot get at the wet portion of the boots, and they are often still damp in the morning when one puts them on again. A very simple and entirely sufficient rack may be made at very little cost. All that is needed is two side brackets and three wooden rods. One rod is placed a little higher than the other two for the back of the boots to rest against in order to prevent their slipping backward. The other two should be so arranged as to well support the boots, the heels being so placed over the back rod as to prevent any slipping forward.

In order to accommodate boots of different sizes the rods may be fixed closer together at one end than at the other. It is a great and inexpensive home comfort.—American Queen.

A Curious Argument.

Mr. Labouchere argues as though one of the necessary qualifications for the discharge of public duty was the possession of muscles or the power to kill somebody. That is a curious argument in the reign of a woman. If women cannot organize themselves to kill other women, it only implies that men ought to give up such insane folly, and the advent of woman will, doubtless, hasten the day when international issues will be settled, not by base bloodshed, but by rational arbitration. As things are now, women suffer quite as much and in some respects even more from war than men suffer, and it is a monstrous injustice that women should have no voice at all in relation to an unspeakable curse of their sex.—London Methodist Times.

The Latest In Bric-a-brac.

The oddest thing in bric-a-brac is a little Italian vase made of red clay, upon which, with a little care, you can have the "green grass growing all around" in the utmost luxuriance.

All you have to do is to soak the vase in water for a day and then sprinkle timothy seed all over the outside. The seed sticks to the wet clay and sprouts, and in about ten days from the time you sow your seed you have a harvest in the form of a green jacketed vase receptacle imaginable.

The grass lasts for about a month if you are careful to keep water in the vase, and then it can be peeled off and renewed in the same manner as before.

The Astronomy of Life.

When an astronomer foretells the exact minute at which two planets will cross each other, we know there is no magic about it. The whole universe is governed by laws. A man who studies these laws of nature carefully and reduces them to a science, can count on exact results every time. A doctor knows that certain remedies affect certain diseases.

When a disease seems to have no remedy, the doctors pronounce it incurable. All the time Nature may have the remedy right at hand, but it will only be discovered by the doctor who has studied longer and deeper than others into this particular disease.

Consumption seemed for a long time without a remedy, until Dr. Pierce made his wonderful "Golden Medical Discovery" 30 years ago. It has proved to be a marvelous and almost unfailing specific for consumption and all forms of lung, bronchial and throat difficulties.

Its effects seem almost magical but its operation is based upon simple natural laws. It has the peculiar property of enabling the blood-making glands to manufacture healthy, red blood and pour it abundantly into the circulation. This nourishing, vitalizing effect is rapidly manifested in the lungs and bronchial tubes where it stops the wasting process and builds up healthy tissue. It is readily assimilated by stomachs which are too weak to digest cod liver oil, and it is far superior to malt-extracts as a permanent and scientific flesh-builder in all wasting diseases.

"Twenty-five years ago eight different doctors told me that I would live but a short time, that I had consumption and must die," writes Geo. R. Coope, Esq., of Myers Valley, Pottawatomie Co., Kans. "I finally commenced taking Dr. Pierce's Golden Medical Discovery and am still on the land and among the living. I have faith to believe that it has lengthened my life for the last twenty-five years, and I have so much faith in all of your medicines that I want one of your 'Common Sense Medical Advisers.'"

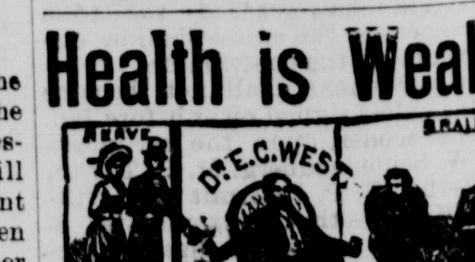

Dr. Pierce's medicines are recognized as standard remedies throughout the world. His "Pleasant Pellets" cure constipation.

LOCAL EVIDENCE.

A Report from the D. E. McNicholl Pottery.

If this report were published in East Liverpool, about a resident of Liverpool, England, we would expect our readers to harbor some suspicion about it, at least we are safe in saying that any public utterance made in East Liverpool, Ohio, by a resident of Liverpool, England, would not be half so interesting as a sentence or two from Mr. H. Thompson, of 306 Fourth street, presser at the D. E. McNicholl Pottery and a resident of East Liverpool for the past forty-five years. Mr. Thompson, in 61, joined Co. L. of 62nd Penn. Infantry at Pittsburg and served his country well for three years, enduring all the hardships and trials of camp life. When such a man as he comes out flat footed and endures the claims of an article in which he has no interest there must be something more than ordinary merit behind it. It requires no reasoning or argument to prove this. The facts are plain and to the point. He says: "During my campaign experience between the years of 61 and 64 I contracted a weakness of the kidneys which has bothered me more or less ever since, and recently very severely. I had a constant aching pain across the small of my back and was subject to attacks of muscular rheumatism, especially in damp or changeable weather. I have frequently been so bad that I could scarcely get up when down and in fact could hardly get around at all. I have tried many remedies in an endeavor to get rid of my trouble, but found nothing that seemed suited to my case until I got a box of Doan's Kidney Pills at the W. and W. Pharmacy. They filled the bill exactly, giving me almost immediate relief and warded off the last attack. I am continuing their use firmly believing they will radically cure me. I do not hesitate to give Doan's Kidney Pills my earnest endorsement, believing they will be a great source of benefit to those troubled as I was."

Doan's Kidney Pills are for sale by dealers. Price 50 cents or mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

DR. E. C. WEST'S

NERVE AND BRAIN TREATMENT

THE ORIGINAL, ALL OTHERS IMITATIONS.

Is sold under positive Written Guarantee, by authorized agents only, to cure Weak Memory, Dizziness, Wakefulness, Fits, Hysteria, Quickness, Night Losses, Evil Dreams, Lack of Confidence, Nervousness, Lassitude, all Drains, Youthful Errors, or Excessive Use of Tobacco, Opium, or Liquor, which leads to Misery. Insanity and Death. At store or by mail, \$1 a box; six for \$5; with written guarantee to cure or refund money. Sample package, containing five days' treatment, with full instructions, 25 cents. A GOODBYE CLEARANCE SALE.

The time has come when goodbye must be said to every piece of Summer Merchandise in our store, irrespective of what effect it may have on our profit and loss account. This will be done, and done in short order. We don't propose to do it by advertising a Clearance Sale for 30 days, and selling the goods at regular prices. Ten days will be the limit of this sale, and the prices will be so low that a clean sweep will be made in every department.

FRIDAY MORNING, JULY 30th, at 8 O'CLOCK,

the sale begins, and continues for 10 days only. Unnecessary to say that those who get here first will carry away the best bargains. Below we give you a fair sample of how the goods will be sold. Bring this price list with you, and remember that one-half of the bargains offered are not mentioned here.

WELLSVILLE.

A LITTLE LOCAL POLITICS.

The Relation of the Chief of Police and Local Option Questions.

Mr. C. R. McGregor has taken charge of the NEWS REVIEW, and is our only authorized agent in Wellsville. Subscribers will make note that Mr. McGregor is the only authorized agent of this paper, and to him alone will they make payment of money due the REVIEW.

Any subscribers who have not received the NEWS REVIEW will make known the fact to C. R. McGregor, and the matter will receive prompt attention.

HARRY PALMER,
Owner and Manager.

JUST LIKE OLD TIMES

Police Court Was a Very Busy Place.

A LITTLE BIT OF CITY POLITICS

Something About the Chief of Police Ordinance and the Local Option Matter—Not Much of an Appropriation at the Shops For August.

It looked like old Republican times in Mayor Jones' court last night when the inside of the rail was crowded with prisoners, officers and reporters. Romulus Welch, charged with assault and battery, was bound over to court in the sum of \$150. Romulus took the liberty to kiss Mrs. James Fawcett yesterday.

Thomas Weldon, Chas. McMullen and Bert Adams, for playing ball on the street were next arraigned, but the trial will be put off until this evening when Frank and Will Weldon will be arrested and tried on the same charge with the other three. Willie Lewis for trespassing, will be given a hearing this evening. Jemiah Campbell was charged with using very obscene and abusive language, but she said she wanted a lawyer to talk for her, so her case was laid off until the lawyers get home from their vacation. There were no cases this morning.

ager, or his duly accredited agent, Mr. C. R. McGregor, as I have severed my connection with the NEWS REVIEW to take charge of my father's business at Toronto. I embrace this opportunity to thank my friends for kindness to myself while in the newspaper business, and bespeak their good will for my successor.

FRANK B. KELLY.

The News of Wellsville.

A member of council is quietly polling the number of bicycles in town to see how much money could be raised by taxing the bicyclists \$1 each and using the money to buy a street sweeper for the city. The question of buying a sweeper will come up at Monday night's meeting. Wheelmen generally express themselves willing to pay an annual tax of \$1 if the money will be used to keep the paved streets in order.

Miss Erla Stevenson will entertain a company of her friends at her home this evening in honor of Misses Dora and Louise Francy, of Toronto.

Edward Pierce left today for Loquanto, Col., where he will make his home with his sister, Mrs. Edward Hamilton, formerly of this city.

The case of David Mannist versus Burgess Mick, of Yellow Creek township, will come up for trial before Squire McCready tomorrow. Mannist sued for \$26 he says Mick owes him on a suit of clothes.

The remains of Mrs. Katherine Fraser, of Salineville, were interred at Brick church today.

Thomas Stevenson, Jr., caught a specimen of the very rare white ground squirrel today.

Addison Turner, Wellsville's crack pitcher, leaves for Covington, Ill., today to accept a position in the broom works there. Sandy Steel and Phillip McShane will pitch for the Wellsville team now.

The Episcopalian Sunday school is picnicking at Columbian park today.

The entire oats crop of T. W. Fraser, of the Scotch settlement, was destroyed by the stock of Mrs. Jennie McIntosh, and now a big law suit will begin about the line fence.

—Miss Cora Clawson, of Homewood, Pittsburgh, is visiting her friend, Miss Ella Mountford, Second street.

A Romance of the Wire.

"There's luck in matrimony as in everything else," mused an old Detroit who, in his early days, was a telegraph operator. "For nearly 30 years my wife and I have lived happily together. We have had our little domestic squalls like other people, but I can say that we have sailed on smooth waters with fair winds.

"She used to be a telegraph operator too. I went to substitute for a friend of mine on the line to give him a brief vacation. He told me that he had been carrying on a flirtation with a woman operator with whom he was very favorably impressed. She only knew him by his office call, and he requested that I carry on the incipient courtship so that he could take it up on his return. The girl would be none the wiser, and his suit would be that much further along. Being young and romantic, I assented as a matter of course.

"From the first message I concluded that the wooing had reached a very interesting stage and entered right into the spirit of the affair. Not being troubled by any of my friend's embarrassment, for he was in love, I talked to her like a

A GOODBYE CLEARANCE SALE.

The time has come when goodbye must be said to every piece of Summer Merchandise in our store, irrespective of what effect it may have on our profit and loss account. This will be done, and done in short order. We don't propose to do it by advertising a Clearance Sale for 30 days, and selling the goods at regular prices. Ten days will be the limit of this sale, and the prices will be so low that a clean sweep will be made in every department.

FRIDAY MORNING, JULY 30th, at 8 O'Clock,

the sale begins, and continues for 10 days only. Unnecessary to say that those who get here first will carry away the best bargains. Below we give you a fair sample of how the goods will be sold. Bring this price list with you, and remember that one-half of the bargains offered are not mentioned here.

WELLSVILLE.

A LITTLE LOCAL POLITICS.

The Relation of the Chief of Police and Local Option Questions.

Mr. C. R. McGregor has taken charge of the NEWS REVIEW, and is our only authorized agent in Wellsville. Subscribers will make note that Mr. McGregor is the only authorized agent of this paper, and to him alone will they make payment of money due the REVIEW.

Any subscribers who have not received the NEWS REVIEW will make known the fact to C. R. McGregor, and the matter will receive prompt attention.

HARRY PALMER,
Owner and Manager.

JUST LIKE OLD TIMES

Police Court Was a Very Busy Place.

A LITTLE BIT OF CITY POLITICS

Something About the Chief of Police Ordinance and the Local Option Matter—Not Much of an Appropriation at the Shops For August.

It looked like old Republican times in Mayor Jones' court last night when the inside of the rail was crowded with prisoners, officers and reporters. Romulus Welch, charged with assault and battery, was bound over to court in the sum of \$150. Romulus took the liberty to kiss Mrs. James Fawcett yesterday.

Thomas Weldon, Chas. McMullen and Bert Adams, for playing ball on the street were next arraigned, but the trial will be put off until this evening when Frank and Will Weldon will be arrested and tried on the same charge with the other three.

Willie Lewis for trespassing, will be given a hearing this evening. Jemiah Campbell was charged with using very obscene and abusive language, but she said she wanted a lawyer to talk for her, so her case was laid off until the lawyers get home from their vacation. There were no cases this morning.

Railroad Notes.

The car shop department went on a five hour schedule today. This is the last day of the working month and tomorrow they go on eight hours again. An official said that the appropriation for August is much smaller than the July appropriation, and things look very blue for the shopmen. He said if the miners' strike would be settled it would make a big change for the good.

As engine 665, attached to train 118, was going through Rootstown yesterday, the rear axle broke, but it caused no further damage.

Harry Allison, night operator at the shops, is off duty because of the death of his mother. His place is supplied by Thomas King, of Ravenna.

To the Public.

All money due the NEWS REVIEW from my late subscribers will be paid to Capt. Harry Palmer, owner and man-

ager, or his duly accredited agent, Mr. C. R. McGregor, as I have severed my connection with the NEWS REVIEW to take charge of my father's business at Toronto. I embrace this opportunity to thank my friends for kindness to myself while in the newspaper business, and bespeak their good will for my successor.

FRANK B. KELLY.

The News of Wellsville.

A member of council is quietly polling the number of bicycles in town to see how much money could be raised by taxing the bicyclists \$1 each and using the money to buy a street sweeper for the city. The question of buying a sweeper will come up at Monday night's meeting. Wheelmen generally express themselves willing to pay an annual tax of \$1 if the money will be used to keep the paved streets in order.

Miss Erla Stevenson will entertain a company of her friends at her home this evening in honor of Misses Dora and Louise Francy, of Toronto.

Edward Pierce left today for Loughborough, where he will make his home with his sister, Mrs. Edward Hamilton, formerly of this city.

The case of David Mannist versus Burgess Mick, of Yellow Creek township, will come up for trial before Squire McCready tomorrow. Mannist sued for \$26 he says Mick owes him on a suit of clothes.

The remains of Mrs. Katherine Fraser, of Salineville, were interred at Brick church today.

Thomas Stevenson, Jr., caught a specimen of the very rare white ground squirrel today.

Addison Turner, Wellsville's crack pitcher, leaves for Covington, Ill., today to accept a position in the broom works there. Sandy Steel and Phillip McShane will pitch for the Wellsville team now.

The Episcopalian Sunday school is picnicking at Columbian park today.

The entire oats crop of T. W. Fraser, of the Scotch settlement, was destroyed by the stock of Mrs. Jennie McIntosh, and now a big law suit will begin about the line fence.

—Miss Cora Clawson, of Homewood, Pittsburgh, is visiting her friend, Miss Ella Mountford, Second street.

A Romance of the Wire.

"There's luck in matrimony as in everything else," mused an old Detroit who, in his early days, was a telegraph operator. "For nearly 30 years my wife and I have lived happily together. We have had our little domestic squalls like other people, but I can say that we have sailed on smooth waters with fair winds.

"She used to be a telegraph operator too. I went to substitute for a friend of mine on the line to give him a brief vacation. He told me that he had been carrying on a flirtation with a woman operator with whom he was very favorably impressed. She only knew him by his office call, and he requested that I carry on the incipient courtship so that he could take it up on his return. The girl would be none the wiser, and his suit would be that much further along. Being young and romantic, I assented as a matter of course.

"From the first message I concluded that the wooing had reached a very interesting stage and entered right into the spirit of the affair. Not being troubled by any of my friend's embarrassments, for he was in love, I talked to her like a bold and ardent swain. She evidently liked this, and I was on the verge of engaging my friend when I received word from him that he had met his fate at home; that he was going into her father's store, and that I must close up his telegraphic courtship as gently as I could.

"At first I was mad enough to hunt him up and thrash him. Then I suddenly discovered that I was mightily pleased. She only knew him by the office call, and now the call was mine. Just as soon as there was an opening I proposed, and back came an acceptance. I've never told her, but between me and you she's worth a carload of his wife."

—Detroit Free Press.

Killing an Elephant.

It took three hours to kill a vicious elephant in the vicinity of Liverpool, and in assisting to bring about this result a medical gentleman almost succeeded in compassing his own destruction. Charles II was the name of the elephant. Two Liverpool physicians were appointed executioners. They fed the beast on aconite concealed in carrots and arsenic sprinkled on buns, which it swallowed pleasantly and asked for more. Then one medical gentleman conceived the idea of loading a syringe with prussic acid, inducing the elephant to open its mouth and squirting the poison down its throat. Charles II

considered this great sport, but the doctor who was operating the syringe, by reason of his interest in the experiment, momentarily forgot the deadly properties of prussic acid, inhaled the fumes and fell unconscious. The other physician saved his colleague's life with great difficulty, the elephant looking on with deep sympathy. However, after Charles II had taken enough poison to kill 2,000 men, according to the doctors, and three hours had passed since the first dose he suddenly toppled over and expired quietly. Like the other Charles II, he had been an unconscionable time dying.—San Francisco Argonaut.

When Umbrellas Were First Used.

Umbrellas are of great antiquity. Among the Greeks they were a mark of elevated rank, and one is seen on a Hamilton vase in the hands of a princess. We find the umbrella figured up on the ruins of Persepolis, and the Romans carried it at the theater to keep off the sun. Yet Coryate, the traveler, in 1611, notices the umbrellas of Italy as rarities. These and other umbrellas are only described for keeping off the sun, which may be explained by the comparative scarcity of rain in the above countries. The frequency of rain in other lands led to their being used for a very different purpose. Jonas Hanway is described to have been the first to walk the streets of London with an umbrella over his head, which he had probably used in his travels in the east. And in 1778 one John Macdonald, a footman, was ridiculed for carrying in the streets an umbrella which he had brought from Spain. However, as he tells us, he persisted for three months in carrying his umbrella, till people took no further notice of the novelty.—Harper's Round Table.

Fifty Miles to Market.

It is not an uncommon thing in France to see a farmer 40 or 50 miles from home in wet weather with a load. If he sees a prospect of a three days' rain, he puts his tarpaulin over his load, a cover over his horses and a waterproof coat on and starts off to market. He may go 50 miles before he finds a market that suits him, or he may know in advance just where he is going. You do not often see anybody driving 50 miles through a rainstorm in the United States to find a market for a load of hay, but it is not uncommon to see farmers' wagons 40 or 50 miles from home in France. They choose the wet weather for that purpose. Their roads are just as good then as at any time.

THE Spaniards are pleased because congress passed no more Cuban resolutions. Americans can therefore not be quoted as being like Spaniards.

ALTGELD has delivered an opinion on the tariff bill, and the country can proceed with business. He talked a great deal, but little of it will be remembered longer than a week.

BETTER buy sugar beet seed than invest in a ticket to Klondyke. One will surely result in profit without hardship, and the other will probably bring hardship without profit.

THE Steubenville papers hope the centennial celebration will so advertise the place as to give it a new lease on life. We hope so, too. There is not a town in the land which needs it more.

WHEN it is remembered that the value of silver in a silver dollar is today only 40 cents one can readily understand why the Ohio Democracy is tearing its hair in search of a new issue for the state campaign.

WHEN there is a general demand for coal the strike will be settled in short order, and if the prospects for the future materialize it will not be long until West Virginia will be unable to supply the demand.

FROM present indications, the census of the city will show a healthy increase, a little matter for congratulation when it is remembered that a town which can grow during hard times is sure to boom under prosperous circumstances.

WHETHER the attitude of Japan toward this country will amount to anything more than a breeze remains to be seen, but there is ample room to believe that the island empire has learned a thing or two about diplomacy as well as war.

THAT wheat and silver assertion which rolled often from the eloquent lips of Mr. Bryan last year, has taken another fall out of the boy orator. Wheat is higher today than ever, while silver is groping around at the foot of its long list of falling prices.

TOO LATE NOW.

Fortunately the people know the Democratic party and its greatest helper, the Democratic press, so that all this dredging the return of prosperity will amount to nothing. Once more the press of free trade is desperate. Without an important issue and not sure of its own principles it appeals to the last resort, and with little regard for the truth attempts to show the existence of the poverty it did so much to produce. Some of that poverty is still here, any man would be unwise to deny its existence, but it is leaving. The bright sun of better times is already warming the nation from boundary to boundary, and the people are really better. The whole country is feeling the benefits of protection. Prosperity is returning, and when the Dingley bill has been given a thorough trial it can be said to have returned. Its too late to cry calamity now.

ON THE RIVER.

TO BE CLOSED AT ONCE

The East End Pottery Is Now Assured.

WILL BE WORKING IN DECEMBER

The Land Company Have Made Such Progress as to Permit of the Final Settlement—Very Good Record for the Past Few Days.

The people of East End can rejoice and be glad for the new pottery is assured, and before the middle of next month workmen will be engaged in constructing the plant.

Agents of the land company were hard at work this week, and have made such progress that not only is the guarantee assured, but enough lots have been sold to make a respectable showing. A little other business is necessary before the matter is finally closed, but that will be done this week and it is expected the papers will be signed Saturday night or early Monday morning.

The Sebring company have made their arrangements, and will have men at work as soon as the deal is closed. They will rush work on the plant, and expect to have it in operation not later than the middle of December.

COLD IN THIS COUNTY.

We Have the Banner For Low Temperature.

The agricultural report for the week says:

The highest temperature recorded was at Vickery, Sandusky county, 94 degrees on the 20th, and the lowest, 54 degrees, occurred at Millport, Columbian county, on the 22nd. In many localities stock was killed by lightning. Oats will be ready to cut next week. Corn, other than that damaged by rains, is looking well and beginning to tassel. Wheat nearly all out of fields; yield good and quality fine; threshing in progress. Hay harvest well advanced. Early potatoes small and but few in a hill; late potatoes looking better. Second growth of clover is pushing ahead splendidly. Buckwheat and millet doing well. Apples still dropping; almost a failure. Pastures and meadows greening up nicely. Raspberry season about over. Blackberries abundant.

SPRING GROVE.

Arrangements Have All Been Made For Meetings.

The meetings at Spring Grove will commence on Thursday, August 5, and continue until Monday evening, August 16. In efficient corps of ministers is in charge of the meetings, and specially interesting and instructive programs will be prepared for both Sundays. Music will be rendered by the combined choirs of East Liverpool and Wellsville and will be of the good old-fashioned, soul-stirring kind. The association has charge of the hotel this year and furnishes meals at 25 cents, and weekly board at \$5. The grounds are in splendid condition and most of the cottages are occupied, making the grove one of the most delightful resorts within a radius of hundreds of miles.

A Trip on the River.

The Queen City, when it left this port for Cincinnati last night, had no less than six people from here on board. Mr. and Mrs. David Jessop went to Cairo, and Miss Margaret Reed, Mrs. Webb, Mrs. Licklider and Miss Daisy Lakel are making the round trip to Cincinnati.

Out at Spring Grove.

The phonograph entertainment given last evening at Spring Grove was largely attended by the young people of the ground.

There are now 30 families occupying cottages in the grove, and it is expected the number will materially increase before the close of next week.

On the River.

The river raised a little yesterday, but later began to fall. The marks now show 8.10 feet and falling. There is no coal being sent south, and the only boats to pass this port were the Princess and Queen City down, and Ben Hur up.

Had a Good Time.

The Cosmopolitan club entertained their friends in excellent style at Columbian park last evening. Dancing was the amusement, and the large party present enjoyed it.

They Will Drill.

Company E will meet for drill next Monday evening. Captain Hill will be out of the city, but Lieutenant Finley says drill will take place if there are only 10 members present.

DEATHLY ALASKAN COLD.

How the Mail Carriers Were Frozen to Death.

A letter received recently at Port Townsend, Wash., by the last steamer from Alaska gives full particulars of the terrible death of three men, Blackstone, Bottcher and Mollique, who were frozen while endeavoring to carry mail from Sunrise City across the glacier to Prince William sound.

The letter was written by Charles Willoughby to his mother. Willoughby left Port Townsend 18 months ago and has since been in the neighborhood of Sunrise City. He was a member of the searching party which found the bodies of the dead mail carriers. He found Blackstone dead on the beach, lying in blankets and frozen to death with half the carcass of his dog, the unfortunate fellow having eaten part of his faithful companion before he succumbed to the intense cold. His remains were interred on the beach.

The bodies of Bottcher and Mollique were found some distance away on the top of the glacier, where both had perished from the cold. Their remains were to have been buried by the second party, which went out with directions as to where the bodies could be found.

The party left Sunrise City with the mail March 7. The frozen bodies were found six weeks later.

The letter further says that the past winter was not as severe as was generally supposed, the coldest weather being one night in February, when for four hours the mercury dropped to 19 degrees below zero.

Of 46 horses taken to the Cook inlet country last season for use in pack trains only four survived the winter. There is good money in operating pack trains there, and last season's trial demonstrated the fact that horses cannot endure the climate. The owners will ship a large number of mules north next season to take the places of the horses, but as it is generally conceded that mules and negroes flourish best in warm countries the latter experiment is being watched with interest.—San Francisco Chronicle.

TWENTY CENT DOLLARS.

United States Minting Coins For Foreign Countries.

The government is now minting silver dollars worth only 20 cents apiece. They will be only 35 per cent silver, the balance being copper and nickel, but they will circulate at full value.

Happily they are not intended for circulation in this country. The work is being done for the Dominican Republic and the dollars will be sent to Santo Domingo. The design for the coins was furnished by the Dominican treasury department and in no respect, excepting shape, resembles the dollar of the United States.

It has long been the custom of the United States to make the money of several South American countries, and as an act of comity and good will the work is done at the actual cost of labor and material. The present order from Santo Domingo also includes 300,000 half dollars, 375,000 quarter dollars and 750,000 dimes.

The mint bureau has just filled an order from Costa Rica for a large quantity of gold coins. The government of Costa Rica is so pleased with the coinage that it has ordered through its minister at Washington 40,000 more coins of gold. Estimates as to the cost of producing them are now being prepared by the director of the mint. Costa Rica has recently adopted a gold basis and hence the necessity for gold coins.

The first work of this kind done by the United States was in 1876, when \$100,000 worth of minor coins were turned out for the government of Venezuela.—Chicago Times-Herald.

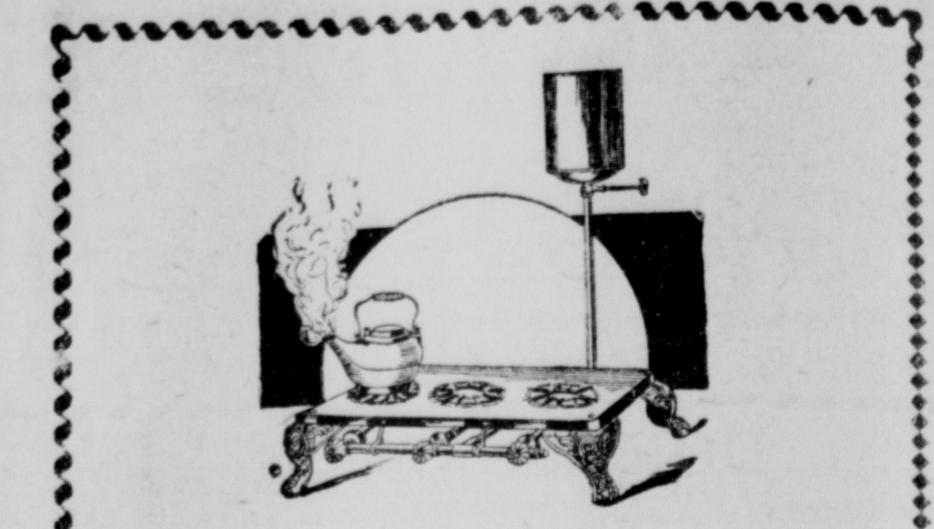

Jerry Simpson Is Dudish Now.

Jerry Simpson's old time friends who knew him when he was sookless would hardly have recognized him as he stood leaning against the gilded wall of the senate chamber on a recent afternoon while the vote was being recorded on the passage of the tariff bill. Jerry has been slightly lame lately, as a result of a street car accident, and so he carried a cane, which added somewhat to his dudish appearance. He was dressed in the strictest nineteenth century summer style. He wore white duck trousers, rolled up two inches at the bottom, russet shoes, blue sack coat, standing collar and small tie, and instead of a vest wore the regulation summer belt. Some of the senators who have known Simpson ever since his entrance into public life were compelled to walk over and look directly into his face before they could believe it was he. A few years of Washington life have wrought striking changes in many a man, but in no case has the metamorphosis been more complete than in the case of Jerry Simpson of Medicine Lodge.—Kansas City Times.

New Poles.

The Liverpool street railway continued its improvements along the line today by putting in a number of new poles. All worn out poles will be replaced with new ones.

The eggs of a grouse vary from 8 to 14 and are of a reddish white ground color, almost entirely covered with large spots ofumber brown.

CUNNING OF THE LEFT HAND

Some of the Advantages That Are Possessed by the Ambidextrous.

Ambidextrous men and women, or those who can use either right or left hand with equal facility, are not nearly so frequently met with as might at first be supposed—in fact, they are quite rare. This double faculty is, however, much more frequently met with among butchers and sailors than in any other walks of life. Left handed butchers are numerous, as a walk through any of our large market houses will quickly demonstrate, but it is a very interesting study to watch one of them who will cut, chop, saw and handle his

meat without once changing it from one side to the other on the block or changing his own position.

In view of the many advantages derived from the ability to use both hands equally well many people have often expressed surprise at the action of educational authorities in insisting on the use of only the right hand instead of trying to develop an equal skill in the other. They all stick to the right handed idea, however, and an old resident of Frankford, noted for his ambidextrousness, is still mourning the loss of a prize at school through the use of his left hand in writing, although he was equally skillful as a penman with his right.

The benefits derived from the use of both hands were excellently illustrated in the experience of two carpenters who lived in Frankford some years ago. Their names were Cross and Walton, and the former was right handed, the latter left handed. As one was also very tall and the other very short, they made a curious couple, but they always worked together laying floors and putting up joiners' work in buildings.

They could take jobs of this character cheaper than any other, because they could work from either end toward each other so handily. Cross would square a floor board at one end and Walton would "scribe" and cut it off to fit at the other end and then nail down, working together from opposite ends.

Left handed machinists are always at a disadvantage, as machinery is invariably adapted to people who work right handed, but the ambidextrous man or woman is always at home in whatever work is undertaken.—Philadelphia Record.

Suggestive.

Fond Mother—That piece my daughter is playing is very difficult.

Visitor—Can't you prevail upon her to try one that is impossible?—Brooklyn Life.

Of Course.

Professor (a little distracted)—I'm glad to see you. How's your wife?

"I regret it, professor, but I'm not married."

"Ah, yes. Then of course your wife's still single."—Fliegende Blatter.

THAT wheat and silver assertion which rolled often from the eloquent lips of Mr. Bryan last year, has taken another fall out of the boy orator. Wheat is higher today than ever, while silver is groping around at the foot of its long list of falling prices.

TOO LATE NOW.

Fortunately the people know the Democratic party and its greatest helper, the Democratic press, so that all this dredging the return of prosperity will amount to nothing. Once more the press of free trade is desperate. Without an important issue and not sure of its own principles it appeals to the last resort, and with little regard for the truth attempts to show the existence of the poverty it did so much to produce. Some of that poverty is still here, any man would be unwise to deny its existence, but it is leaving. The bright sun of better times is already warming the nation from boundary to boundary, and the people are really better. The whole country is feeling the benefits of protection. Prosperity is returning, and when the Dingley bill has been given a thorough trial it can be said to have returned. Its too late to cry calamity now.

TO BE CLOSED AT ONCE

The East End Pottery Is Now Assured.

WILL BE WORKING IN DECEMBER

The Land Company Have Made Such Progress as to Permit of the Final Settlement—Very Good Record For the Past Few Days.

The people of East End can rejoice and be glad for the new pottery is assured, and before the middle of next month workmen will be engaged in constructing the plant.

Agents of the land company were hard at work this week, and have made such progress that not only is the guarantee assured, but enough lots have been sold to make a respectable showing. A little other business is necessary before the matter is finally closed, but that will be done this week and it is expected the papers will be signed Saturday night or early Monday morning.

The Sebring company have made their arrangements, and will have men at work as soon as the deal is closed. They will rush work on the plant, and expect to have it in operation not later than the middle of December.

COLD IN THIS COUNTY.

WE HAVE THE BANNER FOR LOW TEMPERATURE.

The agricultural report for the week says:

"The highest temperature recorded was at Vickery, Sandusky county, 94 degrees on the 20th, and the lowest, 54 degrees, occurred at Millport, Columbian county, on the 22nd. In many localities stock was killed by lightning. Oats will be ready to cut next week. Corn, other than that damaged by rains, is looking well and beginning to tassel. Wheat nearly all out of fields; yield good and quality fine; threshing in progress. Hay harvest well advanced. Early potatoes small and but few in a hill; late potatoes looking better. Second growth of clover is pushing ahead splendidly. Buckwheat and millet doing well. Apples still dropping; almost a failure. Pastures and meadows greening up nicely. Raspberry season about over. Blackberries abundant.

SPRING GROVE.

ARRANGEMENTS HAVE ALL BEEN MADE FOR MEETINGS.

The meetings at Spring Grove will commence on Thursday, August 5, and continue until Monday evening, August 16. An efficient corps of ministers is in charge of the meetings, and specially interesting and instructive programs will be prepared for both Sundays. Music will be rendered by the combined choirs of East Liverpool and Wellsville and will be of the good old-fashioned, soul-stirring kind. The association has charge of the hotel this year and furnishes meals at 25 cents, and weekly board at \$5. The grounds are in splendid condition and most of the cottages are occupied, making the grove one of the most delightful resorts within a radius of hundreds of miles.

A TRIP ON THE RIVER.

The Queen City, when it left this port for Cincinnati last night, had no less than six people from here on board. Mr. and Mrs. David Jessop went to Cairo, and Miss Margaret Reed, Mrs. Webb, Mrs. Licklider and Miss Daisy Lakel are making the round trip to Cincinnati.

OUT AT SPRING GROVE.

The phonograph entertainment given last evening at Spring Grove was largely attended by the young people of the ground.

There are now 30 families occupying cottages in the grove, and it is expected the number will materially increase before the close of next week.

ON THE RIVER.

The river raised a little yesterday, but later began to fall. The marks now show 8.10 feet and falling. There is no coal being sent south, and the only boats to pass this port were the Princess and Queen City down, and Ben Hur up.

HAD A GOOD TIME.

The Cosmopolitan club entertained their friends in excellent style at Columbian park last evening. Dancing was the amusement, and the large party present enjoyed it.

THEY WILL DRILL.

Company E will meet for drill next Monday evening. Captain Hill will be out of the city, but Lieutenant Finley says drill will take place if there are only 10 members present.

DEATHLY ALASKAN COLD.

How the Mail Carriers Were Frozen to Death.

A letter received recently at Port Townsend, Wash., by the last steamer from Alaska gives full particulars of the terrible death of three men, Blackstone, Bottcher and Mollique, who were frozen while endeavoring to carry mail from Sunrise City across the glacier to Prince William sound.

The letter was written by Charles Willoughby to his mother. Willoughby left Port Townsend 18 months ago and has since been in the neighborhood of Sunrise City. He was a member of the searching party which found the bodies of the dead mail carriers. He found Blackstone dead on the beach, lying in blankets and frozen to death with half the carcass of his dog, the unfortunate fellow having eaten part of his faithful companion before he succumbed to the intense cold. His remains were interred on the beach.

The bodies of Bottcher and Mollique were found some distance away on the top of the glacier, where both had perished from the cold. Their remains were to have been buried by the second party, which went out with directions as to where the bodies could be found.

The party left Sunrise City with the mail March 7. The frozen bodies were found six weeks later.

The letter further says that the past winter was not as severe as was generally supposed, the coldest weather being one night in February, when for four hours the mercury dropped to 19 degrees below zero.

Of 46 horses taken to the Cook inlet country last season for use in pack trains only four survived the winter. There is good money in operating pack trains there, and last season's trial demonstrated the fact that horses cannot endure the climate. The owners will ship a large number of mules north next season to take the places of the horses, but as it is generally conceded that mules and negroes flourish best in warm countries the latter experiment is being watched with interest.—San Francisco Chronicle.

TWENTY CENT DOLLARS.

UNITED STATES MINTING COINS FOR FOREIGN COUNTRIES.

The government is now minting silver dollars worth only 20 cents apiece. They will be only 35 per cent silver, the balance being copper and nickel, but they will circulate at full value.

Happily they are not intended for circulation in this country. The work is being done for the Dominican Republic and the dollars will be sent to Santo Domingo. The design for the coins was furnished by the Dominican treasury department and in no respect, excepting shape, resembles the dollar of the United States.

It has long been the custom of the United States to make the money of several South American countries, and as an act of comity and good will the work is done at the actual cost of labor and material. The present order from Santo Domingo also includes 300,000 half dollars, 375,000 quarter dollars and 750,000 dimes.

The mint bureau has just filled an order from Costa Rica for a large quantity of gold coins. The government of Costa Rica is so pleased with the coinage that it has ordered through its minister at Washington 40,000 more coins of gold. Estimates as to the cost of producing them are now being prepared by the director of the mint. Costa Rica has recently adopted a gold basis and hence the necessity for gold coins.

The first work of this kind done by the United States was in 1876, when \$100,000 worth of minor coins were turned out for the government of Venezuela.—Chicago Times-Herald.

JERRY SIMPSON IS DUDISH NOW.

Jerry Simpson's old time friends who knew him when he was sockless would hardly have recognized him as he stood leaning against the gilded wall of the senate chamber on a recent afternoon while the vote was being recorded on the passage of the tariff bill. Jerry has been slightly lame lately, as a result of a street car accident, and so he carried a cane, which added somewhat to his dudish appearance. He was dressed in the strictest nineteenth century summer style. He wore white duck trousers, rolled up two inches at the bottom, russet shoes, blue sack coat, standing collar and small tie, and instead of a vest wore the regulation summer belt.

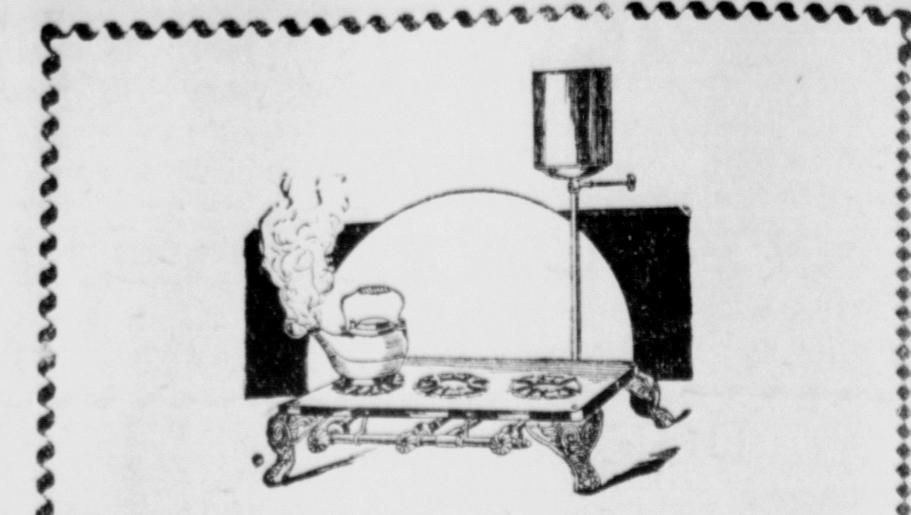

Some of the senators who have known Simpson ever since his entrance into public life were compelled to walk over and look directly into his face before they could believe it was he. A few years of Washington life have wrought striking changes in many a man, but in no case has the metamorphosis been more complete than in the case of Jerry

Simpson of Medicine Lodge.—Kansas City Times.

NEW POLES.

The Liverpool street railway continued its improvements along the line today by putting in a number of new poles. All worn out poles will be replaced with new ones.

The eggs of a grouse vary from 8 to 14 and are of a reddish white ground color, almost entirely covered with large spots ofumber brown.

Why Keep a Range Full of Red Hot Coals

When you can have comfort these hot days by using one of our

Gas Ranges,
Hot Plates,
Gasoline Stoves,
or Oil Stoves

OF COURSE.

Professor (a little distracted)—I'm glad to see you. How's your wife?

"I regret it, professor, but I'm not married."

"Ah, yes. Then of course your wife's still single."—Fliegende Blatter.

THE MARKETS.

PITTSBURG, July 28.

WHEAT—No. 1 red, 74@76c; No. 2 red, 74c; spring wheat, 73@74c.

CORN—No. 2 yellow ear, 34@36c; No. 2 shelled, 33@35c; high mixed shelled, 33@35c.

OATS—No. 1 white, 26@26.4c; No. 2 de. 24@24.4c; extra No. 3 white, 23@23.4c; light mixed, 22@22.4c.

HAY—No. 1 timothy, \$2.00@2.25; No. 2, \$10.50@11.00; No. 1 clover, mixed, \$8.00@8.50; packing, \$6.00@6.50; No. 1 feeding prairie, \$6.50@7.0; wagon hay, \$12.00@3.00 for timothy.

POULTRY—Live—Large spring chickens, 15@15.50 per pair; small, 25@30 per pair; large old chickens, 60@70c per pair; small, 35@40c per pair; Left handed butchers are numerous, as a walk through any of our large market houses will quickly demonstrate, but it is a very interesting study to watch one of them who will cut, chop, saw and handle his meat without once changing it from one side to the other on the block or changing his own position.

In view of the many advantages derived from the ability to use both hands equally well many people have often expressed surprise at the action of educational authorities in insisting on the use of only the right hand instead of trying to develop an equal skill in the other. They all stick to the right handed idea, however, and an old resident of Frankford, noted for his ambidexterity, is still mourning the loss of a left hand at school through the use of his left hand in writing, although he was equally skillful as a penman with his right.

The benefits derived from the use of both hands were excellently illustrated in the experience of two carpenters who lived in Frankford some years ago. Their names were Cross and Walton, and the former was right handed, the latter left handed. As one was also very tall and the other very short, they made a curious couple, but they always worked together laying floors and putting up joiners' work in buildings.

They could take jobs of this character cheaper than any other, because they could work from either end toward each other so handily. Cross would square a floor board at one end and Walton would "scribe" and cut it off to fit at the other end and then nail down, working together from opposite ends.

Left handed machinists are always at a disadvantage, as machinery is invariably adapted to people who work right handed, but the ambidextrous man or woman is always at home in whatever work is undertaken.—Philadelphia Record.

CINCINNATI, July 28.

CATTLE—Receipts light and market steady. We would quote the following prices:

Extra, \$4.90@5.00; prime, \$4.80@4.90; good, \$4.60@4.70; tidy, \$4.30@4.50; good butchers', \$4.10@4.35; fair, \$3.90@4.10; common, \$3.50@3.75; heifers, \$3.00@4.20; bulls, \$4.00@4.20.

STAGS AND COWS—\$2.00@3.50; common to good stags and cows, \$2.00@3.50; common to good oxen, \$2.00@3.50; bologna cows, \$5.00@5.50; fresh cows and springers, \$2.00@4.00.

BUTTER—Elgin prints, 16@17c; extra creamery, 16@16c; Ohio fancy creamery, 14@14c; country roll, 8@9c; low grade and cooking, 5@6c.

CHEESE—New York, full cream, new make, 8@9c; Ohio, full cream, new make, 7@8c; Wisconsin Swiss, in tubs, 11@12c; hamberger, new, 8@8.2c; Ohio Swiss, in tubs, 10@11c; Swiss, in blocks, 5-pound average, 9@10c.

EGGS—Strictly fresh Pennsylvania and Ohio, in cases, large lots, 10@10.50c; in a binding way, 11c; selected fancy stock, 11@12c.

PITTSBURG, July 28.

CATTLE—Receipts light and market steady. We quote: Prime light Yorkers and pigs, \$4.15@4.20; best medium weights, \$4.10@4.15; common to fair, \$3.95@4.10; heavy hogs, \$3.75@3.80; roughs, \$2.05@3.35.

SHEEP AND LAMBS

TOOK DOWN HIS SIGN

The Last of Alex Stevenson In an Official Way.

A LETTER SAVED ONE MAN

More of the Attorney's Peculiar Methods of Transacting Business—Another Case of Interest That Was Paid and Never Turned Over.

The last of Attorney A. W. Stevenson, in an official way, was noted yesterday when the plain wooden sign announcing that his law office was in a room above was taken down from the hallway of the Thompson building in Chester. But that will not cause the general public to forget him. Other instances of his peculiar business methods are coming to light.

Sometime ago when the estate of Joseph Kinney, in Hancock county, was settled, a question arose over a dividing line between his estate and the farm of William Kinney. Rather than have a law suit, Mr. Kinney determined to buy the property, amounting to an acre and a half, at \$34, the price originally paid by him for it, and as the estate owed him some money he would credit the amount on his bill. Meantime the Ernest Oil company, of Sistersville, through Attorney A. W. Stevenson, leased the farm and Stevenson represented to Mr. Kinney that George Ernest wanted his money, and in order to get the affair straightened up a note was given for the amount. Shortly before it came due Stevenson appeared and said Mr. Ernest needed his money. Mr. Kinney refused to pay, and wrote to his son in Sistersville to look it up. It was done and found that Mr. Ernest knew nothing whatever of the transaction. The attorney was called to account at once, and succeeded in settling the affair.

And there are others. It has developed within the past few days that Stevenson as agent collected interest from the late Squire Gould. It never reached the rightful owner, and people who know of the matter are wondering who will bear the loss.

Mr. and Mrs. Stevenson, parents of the wayward young man, are expected to call on S. J. Martin this afternoon at 5 o'clock, and give him a deed of trust in settlement for their son's waywardness. There are a number of people who do not believe Stevenson has yet passed beyond the confines of Hancock county.

IT'S DIFFERENT NOW.

Trade is Better Than It Was a Year Ago.

A salesman for a well known wholesale grocery house left the city on the noon train today in high glee. A crowd of commercial men were talking of the business they had done when a newcomer put in appearance and said:

"Gentlemen, exactly one year ago I was in this place and did what business I had to do between trains. On this trip I have been here over two days and have booked \$1000 worth of orders. This town is all right, and that is no mistake," and then they all congratulated him.

EXPECTS TO BLOSSOM.

McKinley Club Men Like the Indications.

The McKinley club will meet this evening, but it is probable no final arrangements toward opening headquarters will be made, as the committees are not yet ready to make a complete report. The papers which are being circulated to induce the old members to remain with the club are being very generously signed, and there is but little doubt the club will blossom forth in a few weeks larger than ever.

BROKE HIS LEG.

Balzarine Is Disabled For the Present.

Yesterday afternoon as Ed Kelley was driving Balzarine, the famous trotting horse owned by Doc McFarland, a mile heat at the Silver Thorn Driving park the animal slipped and fell at the turn, breaking one of the bones in its front leg. It is seriously though not permanently injured. The driver escaped injury.

Captain Pusey's Side.

Captain Elwood Pusey denies that there is any trouble over the wharf, and says there is no danger of the case going to court. He says Messrs. Pilgrim and Moore agreed to move up, and had always desired to do so, but simply changed their mind. Of course he would rather have the lower place, but is satisfied where he is.

CITY HAS AN ANSWER

For the Suit of William Hayes For Damages.

SOLICITOR CHARGES NEGLIGENCE

Mrs. Hayes Was Killed By the City's Team While Watching a Circus Parade Over a Year Ago—A Lisbon Man Who Will Likely Loose His Wife.

LISBON, July 29.—[Special]—The city of East Liverpool has filed an answer in court to the charges made by William Hayes in his action for damages for the death of his wife, Caroline, she having been killed by a team of city horses during a circus parade a year ago. The city claims Mrs. Hayes was guilty of negligence which directly contributed to the accident.

George S. Runyon, of this place, is defendant in a divorce and alimony action filed a few days ago in Carroll county by his wife, Mary. She alleges cruelty, desertion and unfaithfulness as grounds for action. She owns a farm in Carroll county, and the court enjoined him from interfering with her possessions.

THE MERIT OF ROOTING

Is Recognized by the Boys of the Liverpool Team.

Will Larkins, of the Thomas machine works, is an enthusiastic baseball rooter. Yesterday afternoon he was presented with a baseball bat, handsomely decorated and bedecked with ribbons bearing the inscription, "Compliments of the East Liverpool Baseball club."

Charles J. McKee, manager of the Patterson baseball club of the Atlantic league, is endeavoring to secure John Godwin.

If Winnie Mercer wins his game today against Baltimore it will be the first time he has defeated them.

EAST END IS DISTURBED.

One of Its Residents Has Given the Gossips a Morsel.

East End is talking. A year ago a church man, with a wife and several children, became intimate with a widow. A few months ago she left home and moved to a town not far away. The man followed soon afterward, and last week his wife broke up housekeeping. The last rumor is that the case will find its way into court in the very near future.

Association Day.

The last Sunday in September will be association day in all the Sunday schools in the state of Ohio. The executive committee of the State association of Sunday school superintendents has arranged a program to be rendered in all Sunday schools of Ohio on the day in question. The day is becoming more popular every year, and the celebration the later part of September will be pretty general.

Extending the Name.

The water works trustees have decided to extend the water main to the end of Florence street in West End if the residents will furnish the money for the improvement. It is not known what the residents will do, but it is probable they will accept the terms, as they will all receive their money back in water rent.

No Famine Here.

A lot of coal went west over the Cleveland and Pittsburgh, this morning, and a careful estimate of 50 cars is placed. The Conway yards were well crowded, yesterday afternoon, with the article, and a lot of it was brought to this city through the night.

Best of the Week.

Yesterday there were 97 cars handled in the local yards, making it the best day so far this week. There were 14 cars sent over the road from the out-bound sheds, and nine were unloaded.

Saw the Eclipse.

Thomas Bott, of West End, saw the eclipse this morning through his telescope. The first contact was made at 8:38 o'clock, and the shadow departed at 11:02. It was a beautiful sight.

Doctors Are Busy.

The doctors of the city at the present time are very busy. While there are not many serious cases in the city the usual summer complaints are being attended to.

Some Delay.

The work of repairing the bridge will not be completed this week as was first thought. The rains of the last week have caused the delay.

All the news in the NEWS REVIEW.

The Time Is Short. —

The question of the hour is, are you in the market for the best line of clothing in America? We must sell this stock at some low price. We have a customer for our stock when reduced to a certain point.

We are nearing that point very rapidly therefore, we say again the time is short, and if you are needing a spring suit, now is your opportunity to purchase at less price than manufacturer's price. Remember all is for sale, stock, fixtures and lease. All must go quickly at some price, as we are positively retiring from the business, and anxious to do so as quickly as possible. We say you can get prices of us that no firm in the state of Ohio can offer. Don't delay. This is an important matter for you.

Mothers, bring your boys. Buy Suits for them at lowest prices ever named in the city.

See our stock of Hats and Furnishings.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulterations common to the cheap brands.

ROYAL BAKING POWDER CO., NEW YORK.

PERSONAL MENTION.

—J. M. Potter was in Industry today on business.

—N. G. Macrum was in Pittsburg on business today.

—John A. George was in Bayard today on business.

—Charles Smith is today attending the races at McKee's Rocks.

—Doctor Lee left last night for Winona where he will spend his vacation.

—Miss May Morton, of Salem, is the guest of her father, George C. Morton.

—Thomas Christian, of New Brighton, was in the city yesterday visiting friends.

—Miss Clara Chapman left this morning for Wheeling, where she will visit friends.

—Miss Nanetta Ebersole, of Carrollton, is the guest of Miss Bessie Baxter, Second street.

—F. D. Kitchel is at Markleton today, and will return to the city this evening with Mrs. Kitchel.

—Miss Elsie Matheny left this morning for Shield's station, where she will visit her grandmother.

—Miss Shamp and Miss Allen, of Hiram, O., are the guests of Mrs. McMillan, of Jackson street.

—Miss Ella Walker, who has been visiting here for some time, left today for her home in Wheeling.

—A. Solomon left this morning for a ten days stay in Atlantic City. His friends are saying he will not return alone.

—Harry Vodrey, who with J. M. Cartwright is spending the heated term at Bethany, W. Va., came here yesterday to attend the funeral of Miss Ella Frederick.

Miss Frederick's Funeral.

Impressive funeral services were conducted at the residence, yesterday afternoon, and the remains of Miss Ella Frederick were later interred in Riverview cemetery. Doctor Lee, Doctor Taggart and Reverend Reinartz took part in the services, and W. L. Thompson and M. E. Golding rendered excellent music. There was an abundance of beautiful flowers.

Dentistry.

Have you visited the handsome dental rooms of Dr. G. D. Arnum, in the new syndicate block? The rooms are very cosy and are supplied with the best approved dental chairs and instruments known to the profession. Dr. Arnum is a graduate of the celebrated Philadelphia dental college, and is a thoroughly competent and skillful dentist. *

No Rain Checks There.

"If it rains tonight is this paper good for some other time?" asked a man at the city hall this afternoon after he had paid for a fakir's license.

"We are not in the base ball business," blandly returned the mayor, "and therefore have no rain checks," and the fakir looked out of the window in search of a cloud.

Spent More Money.

The report of the township trustees for the month of July was completed this morning, and shows the following amounts expended: County \$49, township \$90.63. This is an increase over expenditures of last month of \$22.88, and \$48.77 more than was spent in July '96. There is no special cause for the increase.

A Big Shipment.

The largest shipment of crockery for same time to Pittsburg was made this morning. It consisted of 35 baskets, and went away on the morning train.

Taking a Trip.

Richard Thompson and Miss Jennie Crable left this morning for Salineville, from where they will ride their wheels to Kensington.

The Time Is Short.

The question of the hour is, are you in the market for the best line of clothing in America? We must sell this stock at some low price. We have a customer for our stock when reduced to a certain point.

We are nearing that point very rapidly therefore, we say again the time is short, and if you are needing a spring suit, now is your opportunity to purchase at less price than manufacturer's price. Remember all is for sale, stock, fixtures and lease. All must go quickly at some price, as we are positively retiring from the business, and anxious to do so as quickly as possible. We say you can get prices of us that no firm in the state of Ohio can offer. Don't delay. This is an important matter for you.

Mothers, bring your boys. Buy Suits for them at lowest prices ever named in the city.

See our stock of Hats and Furnishings.

IT WAS ALL RIGHT ONCE

But It Has Been Feeding From Public Pap Until Its Goodness Has Gone—A Word to Machine Politicians—Scoring the Tee System.

EDITOR NEWS REVIEW—In my last I promised to pay my respects to the Buckeye State whose supposed editor and publisher has frequently, of late, made use of my name in its news columns.

"I have known the paper from its earliest existence. The Republican party came into power in the fall of 1854 as the People's party, and the next year it was changed to the Republican party and as such has remained in power. During all that time but one Democrat was elected, and he we knew as W. S. Potts, prosecuting attorney.

"The Buckeye was an early agitator for the rights of all men before the law, and being made equal without regard to race or color. It favored temperance, good character in public officials and the proper expenditure of public funds. In the hands of able and energetic editors the paper was considered the official organ of the Republican party in this county, a leader and director of public thought and a palladium from the assaults of our Democratic enemies. In the early history of the party in this county the advocacy of the higher law as against the Dred Scott decision and the argument for temperance and integrity in public officers caused our political enemies, the great unwashed and long-haired Democracy, to call us the God and morality party. The justice of our cause and the integrity of our leaders secured for us divine and human favor, and the adherence of honorable men everywhere.

Since then the Buckeye has deteriorated. It is now in the hands of a man commonly known among the farmers as Pewit Moore. They compare him to the snipe of the bog or the swamp crow, and we all know what sort of a bird that one is. He has been fed by the pap of public printing until his paper became worthless, and at one time almost unreadable. But it was the organ of the machine politicians throughout the county. Just now it is posing as the leader of the party, the director of public thought. The paper is indeed an improvement over what it was a few years ago, but not through his efforts. A graduate in Democratic principles is responsible. From the deep interest he manifests in penal institutions, one is compelled to believe that he is an expert, from experience, in matters of this kind.

"The Buckeye said in mentioning the senatorial convention that 'D. Jay Smith is clothed in sackcloth and ashes and his mourning resounds from the wilds of Pisgah.' Now, that is true, and should be the condition of every right minded man in the county. The knowledge of those political crimes committed against the sacredness of the ballot box at the primaries and the supplanting of delegates in the senatorial convention should cause all to hang their heads in shame. 'Blessed are they that mourn for they shall be comforted' is a good promise for us to remember just now. It will come to D. J. and all other good Republicans when by our votes we shall sound the death knell of the county ringsters and their friends. There has been feasting and fattening, salaries are too big, but it will all leave.

When the Republican party opens its eyes to the real condition of affairs, and by its mighty power places its vote where it will put men of moral and political integrity in the senate and house of representatives of Ohio, who will see to it that a law is placed on the statute books which will turn into the treasury all fees and pay public officials salaries, it will be different. We want laws which will pay them what they could realize from similar work if employed by a private corporation, and we do not want them underpaid any more than we want them overpaid. We want the public printing given to the two lowest bidders, papers of opposite politics, having a general circulation in the county. When we get these needed reforms the oil of gladness will be poured upon our heads, and blessing will come into the heart of every liberty, justice and decency loving Republican in old Columbian. Verily we will rejoice and be glad.

DOG BROKEN HEARTED.

Has Refused Food and Drink Since His Master Died.

Pasquale Sicaliano of New York city was killed by a Rockaway Beach train the other night. Undertaker D. Lininger took charge of the body and removed it to his shop at Van Siclen and Liberty avenues, Brooklyn.

As the body was being placed in the wagon the men noticed a bulldog near by looking on as if he were personally interested in the task. Then he followed the wagon to the undertaker's, where the door was closed in his face.

The poor beast jumped up and peered through the glass and howled and scratched for admittance. This he kept up until the manager of the place, Louis Bader, moved to pity, opened the door and let him in. First the dog licked Bader's hand in token of gratitude for being admitted and then went to the corner of the room where the body lay. There he lay down and whined pitifully.

The men stood it as long as they could and then insisted that the dog be put out. He howled the louder outside, and again they took pity on him and let him in. Meantime the body had been removed to another room and put in an icebox. When the dog could not find the body, he renewed his dismal howling, which resulted in his being permitted to enter the room where the body of his master lay.

He climbed up on the ice chest, where he remained until he was once more put out, when the place was closed for the night.

Outside he yelped and barked for hours, and two policemen dragged the heartbroken animal to the station house. There he was put in a cell and continued to howl and moan. The dog has not eaten anything or touched water since the moment of the accident. The police say that he is surely dying of a broken heart.—New York Journal.

TRIUMPH OF SURGERY.

His Reason Restored That He May Be Hanged.

Three years ago Charles Dreher of Missouri murdered his sweetheart and then tried to commit suicide. He fired three balls into his head, but his skull was too thick, and only one lodged. This bullet caused a slight fracture. It was removed with the shattered bone, new bone formed, the wound healed, and, to the surprise of everybody, Dreher recovered, was tried, convicted and sentenced to be hanged.

He did not exhibit a symptom of insanity, but after incarceration in jail he began to show evidences of lunacy and was finally sent to the insane asylum at Fulton, where he would have remained but for the discovery of the asylum surgeon, who found that the new bone formed over the skull fracture had grown thicker and inward, thus pressing upon the brain, causing insanity. He notified Governor Stevens, an operation was ordered, and the bone shaved off, and now, as soon as Dreher gets well, the surgeon says that he will be sane enough to hang and ready for the scaffold. It will take a month for the new wound to heal after the operation. Dreher will then be returned to the St. Louis jail. A new date will be set for his execution, and the law's penalty for the murder of pretty Bertha Hunnicke will be paid.

The Fulton insane asylum officials say that Dreher's insanity has taken a peculiar phase, in that he had freaks when he was quite violent. This led to investigation and proved that he was lying upon the injured part of his skull, or that the pressure of his hatband caused the extra excitement. From this the discovery was made of the real cause of the insanity. Thus surgery triumphs, and Dreher recovers his reason only to learn that he must die for his crime.—Exchange.

Fame Brought Him a Wife.

A. H. Olney of Gibson, N. Y., a war veteran, has suddenly come into notoriety through using a certain patent medicine, for he had his picture sent broadcast and gave testimonial of a wonderful cure. At the same time, it is alleged, he had an "ad" below the same, saying he was a candidate for matrimony.

He received a letter, it is said, from Jennie N. Hill of Denver saying she was worth \$40,000, and that she would marry him at once. He concluded to go, but a second letter from Wilkesbarre, Pa., had \$10 inclosed to go down there at once, as another woman was pleased with his appearance on paper. He went down there and came back intending to marry her, but soon afterward he received another letter from the Denver woman, with \$75 inclosed, telling him to come at once and get "spliced up." Olney had previously written to an alderman in Denver regarding the woman's finances, and word was returned that she had the \$40,000. Now he was not going to let a good thing go by unnoticed, so he packed all his belongings and left for Denver. Mr. Olney is about 50 years old and draws a pension.—Elmira Gazette.

The Adamless Eden Was Mythical.

Word has been received from the band of 100 men who left San Francisco on the brigantine Percy Edwards several months ago for the "Adamless Eden" in the Pacific ocean. Dr. Carpenter of Alameda, Cal., had a letter recently from

one of the party, John Onsen, formerly in his employ. According to Onsen, it would seem that the "Adamless Eden" is a delusion and a snare. Onsen makes no mention whatever of the beautiful hours of the south Pacific that were supposed to be basking in the sunshine on the shores of the south sea islands waiting with outstretched arms to receive the brotherhood. Because no reference is made by Mr. Onsen to the charming native maidens it is supposed that there were none such. Forty of the brotherhood will become banana planters in Fiji and the remaining 60 will go to New Zealand.

A Royal Shooting Diary.

W. A. Baillie-Grohman writes an article on "Sports In the Seventeenth Century" for The Century. Mr. Baillie-Grohman, speaking of some of the old records of the chase, says:

One of the most interesting records of this kind is a manuscript folio volume of 370 pages, gorgeously bound in green velvet, with solid gold clasps, which is the list of game hunted and shot by John George I, elector of Saxony, the foremost sportsman of his century. It is supposed to be mostly in his own handwriting and forms one of the treasures of the royal library at Dresden. From this punctiliously kept shooting diary we learn that between July 11, 1611, and the day of his death, Jan. 12, 1656, this Nimrod and his suit bagged 110,960 head of game, made up of the unprecedented total of 47,239 red deer, 31,745 wild boars, 102 bears, 818 wolves, etc., the 29 beaver enumerated among the smaller animals making up the balance being, perhaps, the most interesting, as showing the prevalence of an animal at present almost extinct in Europe.

The great weight of some of the stags, boars and bears brought to book by the elector is as surprising as the enormous totals we have given. Today red deer stags of 300 pounds avoidupois are, with the exception, perhaps, of Hungarian red deer, considered unusually fine animals. Indeed, Scotch deer of that weight (clean) are today next to unknown. How much, therefore, must the race have degenerated when we read of stags killed by the above sportsman scaling over 850 pounds avoidupois and hear that he shot 4,139 stags which weighed over 450 pounds! The antlers of these animals were in proportion to their bulk. Every sportsman knows that today red deer antlers bearing more than 14 tines are exceedingly rare. How one wishes oneself back in the elector's days, when one hears of great heads with 30 tines and perches his summary, according to which he bagged 39 stags of 20 points and upward and 1,725 deer of 14 points and upward!

Insect Pests In Hawaii.

Few countries have been more plagued by the importation of insect pests than the Hawaiian Islands, and none has benefited so greatly by the introduction of species to destroy them. The greatest harm was done by scale insects, which multiplied enormously and spread all over the islands. To counteract these pests coccinellidae, vulgarly known as ladybirds, were introduced into the islands in 1890 and were a complete success. They became perfectly naturalized, increased prodigiously for a time, almost cleared the trees and then, as their prey became comparatively scarce, decreased in numbers, only to reappear when the plague returned some time afterward in the island of Kanui. The fruit trees on this island, especially the orange and lime, were in a most deplorable condition from the attacks of aphids and scales. Very few ladybirds could be seen, but in a few weeks they swarmed, and in six months' time the infested trees were all in perfect condition, full of fruit and flower. The reason why the imported beneficial insects have done so much good in Hawaii, while elsewhere their success has been less marked, is that the remote portions of the islands and the consequently limited fauna have given free scope for increase to the new arrivals.—New York Sun.

Mingling With Strangers.

The effect of mingling with new people who have new methods of thought is very salutary. Always to see the same people do the same things, feel the same way, produces a stagnant condition of the mind and heart that is very distressing to behold. There are thousands of invalids who might be greatly benefited by getting away from home, if only for a short time, to mingle with strangers and be touched with the magnetism of the great world as it courses in its accustomed rounds. And there are mental and moral invalids who need the same change, to get their heart and mind enlarged and let in a little more of the great light of life. Outside influences are very valuable to those who at home have been well trained by healthful influences in early youth, so they can avoid the snares and pitfalls into which some so often blindly fall.—True Flag.

The Etruscans.

The Etruscans were a civilized people ages before the foundation of Rome. Herodotus states that Etruria, the modern Tuscany, was founded by a colony of Lydians. The Etruscan vases and tombs show a high state of civilization and refinement, and it is believed that the Romans borrowed many of their institutions and laws from Etruria.

HOW MANY VOTES

will the successful candidate for Governor of Ohio receive on election day, November 2d, 1897? We will give

\$5,000
in Prizes

WILL STAY AT HOME

Labor Day Committee Decides on This Place.

ROCK SPRING—COLUMBIAN PARK

Will Be Chosen at Another Meeting, other Committees Are Waiting Until the Place Is Agreed Upon Before Completing the Arrangements.

It has been definitely settled that the Labor day demonstration will be held in this city.

The committee met last evening, and received reports from the committee on grounds. The subject was thoroughly discussed, and finally narrowed down to the respective merits of Rock Spring and Columbian Park, but the matter was laid over until Friday evening when the question will be finally settled.

The railroad committee were not ready to make a final report as they had not yet received an answer from the railroad company in regard to excursion rates, and consequently the question of making the affair more than local was not decided.

The sport committee reported progress, but it is probable their work will not be pushed far until a ground is selected as the attractions would necessarily be different at the local parks. If the picnic goes to Columbian park it will take the nature of a field day, but if Rock Spring is selected there will be a balloon ascension, tight rope walking and other foreign attractions.

JEFFERSON'S CENTENNIAL.

It Will Be the Big Event in the History of the County.

Jefferson county is 100 years old today, and the centennial will be celebrated Aug 24, 25 and 26. The NEWS REVIEW acknowledges an invitation.

Jefferson originally embraced what is now Cuyahoga, Lake, Ashtabula, Summit, Portage, Trumbull, Stark, Mahoning, Carroll, Harrison and Columbian, and it is desired that the people from these counties join the parent in observing the occasion. An historical address in the opera house will open the affair Tuesday morning, followed in the afternoon by a civic parade. A tablet marking the birthplace of Hon. Edwin M. Stanton will be unveiled. Wednesday's greatest feature will be a parade by townships showing the history and industries of the county. The afternoon will be marked by speeches, and in the evening a grand display of fireworks. The old soldiers will have Thursday, and in the parade will be a battalion of the Seventeenth infantry, U. S. A., the Eighth infantry, O. N. G., and several independent military organizations. The day will close with reunions and a general good time for every one.

IN EAST END.

The Happenings of a Day in the Upper Part of Town.

Mrs. A. Wise is seriously ill at her home in East End. The lady is 69 years of age, and it is feared she cannot recover.

The annual house cleaning is taking place at the Second U. P. church.

Yesterday afternoon a resident of Pennsylvania avenue, above the loop, hit a large hound with a stone. The owner of the canine appeared, and some hot language followed, and for a few minutes it looked as though a fight would follow. Friends interfered and prevented a pitched battle.

IN A NEW PLACE.

Benjamin Harker Goes to the Laughlin Pottery.

Benjamin Harker, general foreman of the Knowles, Taylor & Knowles company, has resigned his position and Monday morning will assume the general management of the Laughlin pottery. Mr. Harker has been connected with the Knowles company for 10 years, and is one of best known and most popular potters in the city and has many friends who will wish him success in his new position.

They Like It.

The selection of Judge Nash, of Columbus, for chairman of the Republican state central committee, is pleasing to a number of politicians in this city. They supported him at the Zanesville convention when he was a candidate against Governor Bushnell.

Garbage In the Street.

A wagon loaded with garbage broke down this morning in Seventh street. The refuse was spilled all over the street, but the driver had his wagon repaired and cleaned it up later in the day.

AN AMERICAN BEAUTY.

A Washington Girl Who Now Ranks as One of Britain's Handsomest Women.

Some Londoner remarked recently that the handsomest women who would go down to history in the British book of beauty would be Americans, and, moreover, he declared that among these Lady Grey-Egerton would probably bear off the palm.

This lovely American spent much of her time during the last season in London in posing for a portrait, a copy of which has now been made for the volume containing all the noted British beauties of the Victorian era.

The painting was executed by Percy Anderson, whose portrait of the Princess of Pless has already become famous.

Lady Egerton's portrait now hangs in the National gallery among the masterpieces of Romney, Reynolds and Lely. The picture shows her in a pose similar to that shown in the reproduction given here.

Unlike many great beauties, she has the good fortune to take an excellent

LADY GREY-EGERTON.

photograph, but no colorless counterfeit could convey the richness of a complexion dark, but exquisitely clear and rosy, nor the wondrous lights and shadows lurking in her eyes and hair. There is about her face and figure a charming girlishness that would never suggest to the stranger the fact that she has now been married more than half a dozen years and is the mother of three children. She has been spending the winter in Ceylon as the guest of Sir West and Lady Ridgway at the government house, Sir West being the present governor of Ceylon. She will pay a visit to America this spring and will be entertained by the Bradley Martins in New York and by many old friends in Washington, her home before her marriage, when she was Miss May Cuyler. Most of her education, however, was received abroad. She had birth and beauty, but no money to speak of, and so her marriage to her handsome young husband was a genuine love match.—Chicago Record.

The Table Jardinier.

The table jardinier which all winter has held maidenhair and feathery farleyense is now filled by the smart woman with wild flowers. It takes a good deal of trouble to keep them damp and not too hot, but when one considers how frequently the little fernery had to be sent to the florist to be refilled and refreshed there does not seem a great difference in labor. The hepatica, or almost any wild flower that can be taken up with native moss around the roots, will look charming when set in its saucer inside the silver rim, which is really one's centerpiece. After the table is cleared the plant, in its own saucer, is lifted from the rim and set back in cool surroundings. One fortunate woman who "can grow any thing" kept her "table garden" shut up in a wash boiler in the cool, dark cellar.—Exchange.

In Charge of Women.

There is a sawmill in Grandin, Mo., many departments of which are in charge of women. There is a woman in charge of the engine. One of the rooms where the big saws are operated is managed by women. The latheroom is also populated with femininity, and the machines of all sorts are handled by them. In the rooms adjoining a force of young women is constantly employed filing and getting the saws in shape for work. The care of the machinery is in their hands, and it is said they are quite as adept and as competent to handle it as any force yet employed in the mill.

Miss Pym's Career.

Miss Lillian Gordon Pym of Boston was among the successful students who recently passed the examination of the Royal College of Music in London and received the degree of associate. Miss Pym was born in Boston 16 years ago, and has been studying abroad five years, during which time she has been awarded a medal for proficiency as a pianist by the associated board of the Royal Academy of Music and the Royal College of Music and also the degree of licentiate from the Royal Academy of Music. She is a daughter of Mr. James Pym of the Boston Daily Herald.

IT AYE TAK'S TWA T' CA' THE KYE.

Bonnie Bessie, sonie lass,
Thro' the heather as ye pass,

Give a kiss tae me.

Big day'll be fair an fine

Gin thy smile upo'me shine.

Will ye, Bessie Lee?

Foot sae light an face sae fair,

Face sae graceful, past compare,

Frood am I t' see.

Dinna leuk aboon me, girl!

Wad ye give me sic a girl?

Wilfu' Bessie Lee.

Ca' the kye! The day is gane,

Will ye follow them alane?

There's nae t' see

Gin thy jump an bonnie waist

Hae an arm about it placed,

Is there, Bessie Lee?

—J. L. Heaton in "The Quilting Bee."

DISAPPEARING GATES.

Grade Crossing Protection Without Any Unsightly Features.

A disappearing gate for railroad crossings has been recently patented by Frederick Nichols of Lynn, Mass. The many advantages of such a gate will be readily understood. Its construction is very simple, there being no cogs or gears. It is made of sliding and jointing bars and angle irons and can be constructed without great expense.

A trench about four feet deep is dug on each side of the tracks across the street. The earth sides of this trench are supported by plates of boiler iron, instead of expensive masonry, bolted to U shaped iron castings. To these castings is fastened the lower and stationary part of the gate. The slit or opening through which the gate comes up is, of course, protected from dirt, etc., by the top rail of the gate when it is down and when public travel is passing over it. When the gate is up, the opening or slit is protected, as public travel over it is stopped. The bottom of the trench is of gravel or concrete, and it is graded toward one end to allow water which does not soak up to run off into a sewer or blind drain.

At the side of this opening, on the street level, are cast iron plates covering manholes, which allow a man to go the entire length of trench to oil or adjust any of the movable working parts.

The gate is counterbalanced with weights, and friction is reduced to a minimum, thus making its operations easy. A bell signal is sounded before the gates are raised. At night incandescent lamps are lighted by contact being automatically made as the gates are raised. Lanterns are used where electricity is not available.

The gates are quick and easy in action, can be operated by one man, where it often requires two by present methods. They can be operated from switch or signal tower in many instances. They will not interfere with trolley wires or electric car tracks. The gates are raised and lowered by the simple movement of a lever on which is a latch, securing the gate in any position.—Philadelphia Record.

How an Owl Saved a Train.

Owls are by common consent adjudged to be birds of ill omen, but Engineer Ned Barnett of the Santa Fe says he happens to know that they are anything but that and tells the following story to prove his assertions:

One morning as the east bound overland was pulling through the mountains west of here, Barnett's engine doing the work, a big horn beaked owl dashed against the front window of the cab with such force as to break the window, the bird itself dropping dead at the engineer's feet. Though Barnett is not, generally speaking, a superstitious man, this seemed so singular an occurrence that he stopped the train and sent a brakeman ahead to see if the way was clear. Strange to relate, the brakeman soon returned, reporting a landslide across the track in the mountain pass about 100 yards ahead. Hands were sent at once to clear the track, and in removing the debris they found another owl, no doubt mate to the first, caught in the crotch of an uprooted tree, crushed to death in the fall.

Barnett had both owls stuffed, and the two now adorn his cab, always insuring him good luck, he says.—Philadelphia Times.

Writing Leaders For the London Times.

I dined with Mr. Walter and his son in Printing House square at 5 o'clock and found that I was expected to write an article there and then on one of the subjects of the day. I protested my inability, not supposing myself capable of doing such a thing in less than a week.

This was poohpoohed. I tried, found it possible and found also that I was expected to repeat the process next day, same hour, same dinner, short conversation after dinner, then the subject was announced, and I was left alone till tea time, when Mr. Walter appeared, read aloud what I had done, with criticisms and, after correction, carried off the paper to the printer. When the article was finished, the same process was repeated, and when I was disburdened of the whole article I went home to bed. Gradually it appeared that I was expected (exceptis excipiendis) to do this every evening.—Letters of Frederick Lord Blackford.

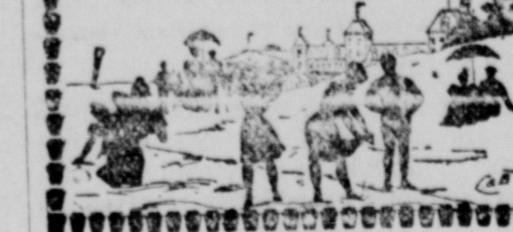

Full Benefit.

Watts—Let's walk along until a car overtakes us.

Potts—No. Let's walk the other way until a car meets us. We will catch it sooner, we will go down town just as quick, and we get more ride for our money.—Indianapolis Journal.

SEASHORE EXCURSIONS.

VIA PENNSYLVANIA LINES

Low Rates For Vacation Trips and Outings Along the Ocean.

Round Trip From Steubenville Only \$10.

General excursions to the seashore at exceptionally low rates will be inaugurated by the Pennsylvania lines this summer, offering a grand opportunity for delightful outings at the most popular ocean resorts on the continent. This announcement will be good news to persons who may desire to enjoy their vacations at the seaside. They may visit Atlantic City, Cape May, Avalon, Sea Isle City, Anglesea, Ocean City, Holly Beach or Wildwood, at very low fare, round trip tickets to either resort being obtainable at the same rate.

The first excursion will be run Thursday, July 15, followed by others on July 5th, August 12 and 21. Round trip rates to either Atlantic City, Cape May, Avalon, Sea Island City, Anglesea, Ocean City, Wildwood or Holly Beach, New Jersey, will be \$10 from Steubenville.

Excursion tickets will be good going on trains leaving Steubenville 4:24 a. m., 1:09 p. m., 2:15 p. m., and 4:08 p. m.

The 4:45 a. m. train connects in Pittsburgh Union Station with a special train of parlor cars and coaches running through to Atlantic City via Delaware bridge route, arriving at Philadelphia at 6:25 p. m., Atlantic City, 8:55 p. m., making the run from Pittsburgh to the seashore in 12 hours. Excursionists may spend the night in Philadelphia and proceed to the shore by any regular train the following day. The 4:08 p. m. train has sleeping cars from Steubenville to Philadelphia without change, and will connect in Pittsburgh union station with sleeping cars running through to Atlantic city.

The return limit will cover 12 days including date of sale, which will be ample for customary 10 days' vacation.

For further desired information, apply to J. K. Dillon, D. P. A., Pittsburgh, Pa., for particulars. Illustrated description of resorts to which excursion tickets will be sold, with list of hotels, and boarding houses at each, will be furnished upon application.

Low Rates.

Special reductions in fare over the Pennsylvania lines will be granted for numerous events to take place this summer in various parts of the United States, in addition to local excursions. Some of the points to which tickets will be sold and dates of sale are as follows:

To Nashville, Tenn., daily to October 15, for Tennessee Centennial and International exposition.

To Winona assembly grounds, Eagle Lake, (near Warsaw, Ind.) May 15 to August 31, for annual assembly and summer school.

To Indianapolis, September 8 and 9, for National Encampment Sons of Veterans.

The reduced rates over the Pennsylvania lines will not be restricted to members of the organizations mentioned, but may be taken advantage of by the public generally. Excursion tickets may be obtained at ticket offices on the Pennsylvania system and will also be sold over this route by connecting railways. Any Pennsylvania line ticket or passenger agent will furnish desired information concerning rates, time of trains, return limit, and other details, to all applicants, or the same may be obtained by addressing Samuel Moody, assistant general passenger agent, Pittsburgh, Pa.

Excursions to Nashville.

The Tennessee Centennial and International exposition will be in progress at Nashville, Tenn., from May until October inclusive. Special low rate round trip ticket will be sold via Pennsylvania lines for this event. Full particulars concerning fare, dates of sales, time of train, etc., may be obtained upon application to the nearest Pennsylvania line ticket agent, or by addressing D. C. MacWatters, district passenger agent, Pittsburgh, Pa.

The Danes.

The Danes, or Northmen, first became prominent in European history in 783, when they began to ravage the north coast of France and southern shores of Great Britain. The daring of these hardy seamen was remarkable, for in their small ships they even penetrated the Mediterranean and became terrors to the seaboard population of Italy, Sicily and Greece. The first king of Denmark is said to have been Skiod, 60 B. C.

Excursion tickets may be obtained at ticket offices on the Pennsylvania system and will also be sold over this route by connecting railways. Any Pennsylvania line ticket or passenger agent will furnish desired information concerning rates, time of trains, return limit, and other details, to all applicants, or the same may be obtained by addressing Samuel Moody, assistant general passenger agent, Pittsburgh, Pa.

Excursions to Nashville.

The Tennessee Centennial and International exposition will be in progress at Nashville, Tenn., from May until October inclusive. Special low rate round trip ticket will be sold via Pennsylvania lines for this event. Full particulars concerning fare, dates of sales, time of train, etc., may be obtained upon application to the nearest Pennsylvania line ticket agent, or by addressing D. C. MacWatters, district passenger agent, Pittsburgh, Pa.

The Danes.

The Danes, or Northmen, first became prominent in European history in 783, when they began to ravage the north coast of France and southern shores of Great Britain. The daring of these hardy seamen was remarkable, for in their small ships they even penetrated the Mediterranean and became terrors to the seaboard population of Italy, Sicily and Greece. The first king of Denmark is said to have been Skiod, 60 B. C.

LOCAL BREVIETIES.

No arrests were made last night.

J. N. Ewing is ill at his home in Sixth street.

A new barber shop began business in Smoky row this morning.

Born to Mr. and Mrs. Johnathan Hughes, Third street, a son.

The union Sunday schools of Toronto are today picnicking at Columbian park.

The fat men and lean men will play a game of ball at Rock Spring next Monday.

A private dance will be given at the home of L. L. Golden, Jethro road, this evening.

Bud Hilliard and family yesterday moved into their new residence in Chester.

The kiln hands at the Goodwin plant resumed work this morning after a month's rest.

The household effects of H. C. Yobo, of this city, were this morning sent to Louisville, Ky.

A carload of water melons were received in the city this morning, consigned to a local firm.

The second story of the Knowles block will be completed next Wednesday if the granite column arrives.

One of the old baggage trucks, which has been in use at the station for nearly 30 years, was sent to Pittsburg today.

The Astor club is now arranging to give a trolley party in the near future. It may come off about the middle of August.

A crowd of young people will this evening attend a festival given at the Tomlinson Run church, near Hookstown.

A force of men were put to work this morning cleaning away a lot of drift that had been washed against the East Liverpool coal company's fleet.

Rev. S. C. George, formerly pastor of the Presbyterian church at Mingo, is in the city endeavoring to organize classes in Latin, Greek and higher mathematics.

Fred Heckathorn, of New Kensington, Pa., is visiting friends in the city. Fred is playing first base for the New Kensington ball team, and is doing good work.

The mail put on the noon train was the heaviest that has left this city for over a month. There were six pouches, and the combined weight was over 100 pounds.

Mark Smith, market master of the market car on the early Pittsburg train, is off on his vacation. His place is being filled by Charles Chandler, of the main line.

Jake Holt, of Wheeling is visiting in the city. He is employed in the La Belle pottery, and states that they are running steadily but are not over-crowded with orders.

Rev. Samuel M. Davis, D. D., formerly pastor of the Presbyterian church at Wellsville, but now of Wilmerding, Pa., has been elected president of the Michigan Female seminary at Kalama-zoo.

Mrs. Meakin, of Burslem, England, is the guest of her cousin, James Wildblood. The lady was a former resident of the city, but has not visited her for 11 years. She will remain until September.

Stage Manager Bridge is this week renovating the Grand Opera House. Several new seats are being put in and much of the woodwork painted. There is also some talk of changing the stage and making it larger. It will be opened in about three weeks.

The trousers worn by Edward Stuck-rath, this morning, while he was riding a bicycle, caught in the sprocket wheel. He performed a somersault and alighted on his face. A large gash was cut in his chin, his arm was skinned and he suffers from several other bruises.

A dog owned by Fireman Pat Woods this morning bit a boy named Beatty while the boy was passing bills in the West End. The boy had the wound dressed by a physician, and the gentleman who was with him said he would make complaint and have the animal killed, but the canine is still on earth.

The Ladies Catholic Benefit association gave a reception at the Carroll club last evening in honor of Mrs. Scullen and her son, who will leave the city Saturday for Cleveland. They will make their home in that place.

MAD RUSH FOR GOLD.

CALIFORNIA EXCITEMENT OF 1849
ONLY A SIDE SHOW TO KLONDIKE.

Captain Tuttle Writes of the Fortunes Made In a Short Time at the Gold Mines—A Deckhand Who Secured \$150,000 In Seven Months.

One of the most significant utterances in corroboration of the stories of immense gold finds in the Northwest Territory is found in a letter received in New York city the other day from Captain Francis Tuttle, commander of the revenue cutter Bear, who was at the time of writing at St. Michael's on the Yukon river. Captain Tuttle cannot, by those who know him, be accused of being a dreamer. It is the first communication sent down from the far north by a United States officer relative to the gold excitement. The letter was mailed July 1 and is graphic in its description.

Captain Tuttle says: "The days of 1849 in California are a mere side show compared with the excitement in the Yukon country. Imagine my astonishment on reaching here recently to run across a man who, last September, was discharged as a deckhand from a steamer on Puget sound. The fellow made his way into Alaska, worked seven months on the Klondike and has now reached St. Michael's with \$150,000 in gold. I could hardly believe my senses, but there was his gold, sure enough.

"As I write St. Michael's is full of miners awaiting an opportunity to get down to Puget sound and to California.

Nearly every other man of them has \$50,000 worth of dust, and there is not a man here with less than \$15,000.

The latter are referred to as 'poor fellows' who have been hard hit with bad luck, and it seems to be real sympathy that the more fortunate ones show for these \$15,000 fellows.

"The deckhand, with his \$150,000, had the largest amount of gold of any one in the crowd. The whole business is almost incredible, yet one must believe what he sees.

"It is enough to turn the mind of any person, and particularly when one learns with what comparative ease this gold is mined."

Captain Tuttle adds that he cannot afford to lay long in St. Michael's or his whole crew will become daft, and he continues:

"I almost feel as if I would like to go up the river myself, and I certainly would do so were I 20 years younger."

The thermometer at St. Michael's registered 87 degrees at the time Captain Tuttle penned his letter.

At St. Michael's Captain Tuttle received instructions from the government to assist in the transportation of reindeer from Siberia into the Yukon country.—New York Journal.

CONVICTS ARE INSANE.

Their Enforced Idleness Said to Be Responsible.

Dr. W. H. Bates and Dr. J. J. O'Connor, who were appointed by Judge Aspinwall of the county court in Brooklyn to inquire into the mental condition of convicts in the Kings County penitentiary, have pronounced seven insane. Enforced idleness is given as the cause of the condition of the lunatics, who, as soon as arrangements can be made, will be transferred to the Matteawan asylum. It is believed that two other convicts will be adjudged insane within a few days.

Of 700 prisoners in the penitentiary only 300 have regular employment, though all have daily exercise. The theory has been advanced that if the city departments should make requisition for goods made by the convicts there would then be more work and consequently less idleness, but the question of the application of the state convict labor law to the case has arisen, and Corporation Counsel Burr contends that it is not obligatory on the part of the city works commissioner to purchase prison made goods. Mr. Burr, however, is further examining the law.—New York Herald.

Durrant Appears to Be Innocent.

Rev. Hugh Lamont, uncle of Blanche Lamont, for whose brutal murder at San Francisco Theodore Durrant has been sentenced to death, visited Durrant recently at San Quentin prison. Speaking of his visit, Rev. Mr. Lamont said:

"Judging from the evidence, I believe Durrant guilty, but his demeanor is that of an innocent man. I had no intention of making public what occurred, between us, but in justice to that unhappy boy I have changed my mind. I visited Durrant at San Quentin and conversed with him in Captain Edgar's office. Durrant held out his hand to me, saying:

"I suppose this is Mr. Lamont. You are attending, I presume, the Christian Endeavor. I greatly regret my inability to avail myself of the same privilege."

During the conversation Rev. Mr. Lamont said, "I believe in your guilt, but if you are an innocent man the evidence will be soon forthcoming."

Durrant replied that he was an innocent man and hoped his innocence would be proved before his death, but at any rate after the execution. Durrant refused to discuss the question as to the probable murderer.—Chicago Evening Post.

MURDER IN A CHURCH.

A Colored Editor Shot During a Quarrel at Montgomery, Ala.

MONTGOMERY, Ala., July 20.—Editor Patterson of The Argos, the colored paper here, has been shot and killed in the Columbus street colored Baptist church. A conference was in progress at the time and the admission of Brown, the deposed pastor of the Lester Avenue Baptist church, was under discussion. Patterson opposed Brown's admission and Stokes, pastor of the Columbus street church favored it. Hot words ensued. Patterson struck Stokes in the face, when the report of a pistol was heard and Patterson fell dead. Several arrests have been made and there is great excitement among the negroes.

A negro man named Pritchett has been caught about a mile from town by a negro posse, who confessed to having shot Patterson. He is in jail.

KILLED IN A CROWDED OFFICE.

A Stock Broker Shoots Two Brothers at Waco, Tex.

WACO, Tex., July 29.—In the stock brokerage office of C. E. Price & Co. B. F. Kivett and W. W. Kivett have been shot and killed by W. Lamden, a member of the firm. Bad feeling has existed between the Kivett brothers and Lamden for some time, growing out of charges made by the relatives of Lamden and a sister of the Kivetts.

The shooting between the brothers and Lamden occurred during the busiest part of the day, when the office was crowded, and it caused intense excitement. Two more of the Kivett brothers armed themselves and proceeded to the scene of the shooting, threatening to kill Lamden, but they were not allowed to enter. The killing is universally looked upon as justifiable.

FATAL EXPLOSION OF BENZINE.

It Caused a Fire in Which One Was Killed and Others Injured.

MICHIGAN CITY, Ind., July 29.—One man lost his life in a fire here, two others were fatally burned and several are missing. The central portion of the town was swept by the blaze. The damage is estimated at \$100,000. James Bowman was killed. The fatally injured are: Louis Schwartz, Fred Peters and Herman Luckow.

The fire was caused by an explosion of benzine in a sash and blind factory.

Miss Allen Cleared of Murder.

GUTHRIE, O. T., July 29.—Miss Grace Allen, the Kansas schoolgirl on trial at Chandler, has been acquitted on the charge of poisoning Miss Phoebe Eckes, her rival, and the latter's mother. In the arguments it was asserted that the women were poisoned with aconite medicine, which the family was known to have used. The verdict received the commendation of the public.

Must Have Been Very Bad.

In this day of slang and slipshod English it is quite refreshing to find one home in which our mother tongue is appreciated and sins against its purity duly resented.

That there is at least one such was made evident in a quarrel which took place in a literary household between the two youngest inmates—a quarrel, like most childish differences, soon over, but fierce while it lasted.

When his wrath had reached its height, the small son of the house, quivering with anger, sought for language to denounce his sister, who had been the aggressor.

"You bad," he burst forth, stamping a stubby shoe; "you bad, you bad!"—

Words failed him. Then with a flash of truly literary inspiration he concluded, "You bad grammar, you!"—Youth's Companion.

Women Criminals in Russia.

Russia's penal statistics show that in the dominion of the czar the women criminals outnumber the men by nearly 50 per cent, just the contrary being the case in other countries. Most of the women criminals are unmarried, and the majority come from the laboring classes in the cities.

Mrs. Lease to Wear a Crown.

TOPEKA, July 29.—Mrs. Mary E. Lease, the Populist orator, has been selected queen of the fall festivities—a harvest demonstration. She will reign as queen for a week and wear a \$30,000 crown.

B. and L. Convention.

DETROIT, July 29.—The United States League of Building and Loan associations is in session here. Reports show that Pennsylvania and Ohio lead in amounts invested.

English Lutheran Synod.

BALTIMORE, July 29.—The fifth biennial session of the English Lutheran Synod of Missouri is in session here and will continue for one week.

A New Jersey Judge Dead.

TRENTON, N. J., July 29.—Judge William L. Dayton of the New Jersey court of errors and appeals has been stricken with paralysis and died. He was formerly United States minister to The Hague.

PITH OF THE NEWS.

Six Indians were killed in a Central Pacific wreck near Reno, Nev.

British troops captured a South African chief, Mashengombi, and over 400 prisoners.

Fred Grant intimates he will resign as police commissioner of New York, the board having adopted a policy of spying on disorderly houses, opposed by him.

John Hurst, a Baptist preacher, emptied two loads of shot into his uncle, Mason Caldwell, for ruining his (Hurst's) 15-year-old daughter, near Tuscola, Ills.

Miss Wilder's Appointments.

Miss Helen Wilder, youngest daughter of Mrs. E. K. Wilder, the mistress of a large fortune and one of the most popular society girls in Honolulu, has been especially honored by the attorney general by receiving a commission as a humane officer. Miss Wilder is the first woman in the Hawaiian Islands to be appointed to such a position. The honor was conferred upon her unsolicited in recognition of her frequent efforts to relieve the sufferings of dumb animals and to bring cruel masters to punishment.

KILLED IN A BUNKER.

PEORIA, Ills., July 29.—In a runaway down Knoxville avenue hill, Miss Grace White, living near Chicago, leaped out of the carriage and alighted head first on the brick pavement, and was instantly killed. Mrs. Spruce's head struck the pavement and she is not expected to live. Mrs. Kirchoff was thrown out.

Caused by Stroke of a Hammer.

OLEAN, N. Y., July 29.—The stroke of a hammer upon a nail caused a \$40,000 fire, and 11 men narrowly escaped being burned to death. The men were reroofing a 35,000 barrel oil tank which was filled with crude oil, when it was discovered that the oil had ignited from a spark, caused as above stated.

Silver Goes Still Lower.

LONDON, July 29.—Silver has touched 463^{1/2}, the lowest figures on record. There is an almost entire absence of demand, as India is obtaining her supplies from China.

General Woodford Sails.

NEW YORK, July 29.—General Stewart L. Woodford, United States minister to Spain, has sailed for the scene of his future duties. General Woodford was accompanied by his wife and daughter and by the members of the legation.

The Weather.

Fair; light southwesterly winds.

LEAGUE GAMES YESTERDAY.

The honor was conferred upon her unsolicited in recognition of her frequent efforts to relieve the sufferings of dumb animals and to bring cruel masters to punishment.

KILLED IN A BLOWWAY.

PEORIA, Ills., July 29.—In a runaway down Knoxville avenue hill, Miss Grace White, living near Chicago, leaped out of the carriage and alighted head first on the brick pavement, and was instantly killed. Mrs. Spurk's head struck the pavement and she is not expected to live. Mrs. Kirchoff was thrown out.

Caused by Stroke of a Hammer.

OLEAN, N. Y., July 29.—The stroke of a hammer upon a nail caused a \$40,000 fire, and 11 men narrowly escaped being burned to death. The men were reroofing a 35,000 barrel oil tank which was filled with crude oil, when it was discovered that the oil had ignited from a spark, caused as above stated.

Silver Goes Still Lower.

LONDON, July 29.—Silver has touched 46²₃, the lowest figures on record. There is an almost entire absence of demand, as India is obtaining her supplies from China.

General Woodford Sails.

NEW YORK, July 29.—General Stewart L. Woodford, United States minister to Spain, has sailed for the scene of his future duties. General Woodford was accompanied by his wife and daughter and by the members of the legation.

The Weather.

Fair; light southwesterly winds.
